RIVER REVEALS MAN IN POLICE GUN BATTLE WAS DROWNED

Kent, Lodi, Bath and Bay Can Let Will Rogers Pay

(Special To The News.)
HEVERLY HILLS, Cal., May 7.—Senator Walsh issued a statement that on account of a novelty has not received the proper amount of publicity that it should. He resigned as follows:
"There is just don't seem to be any burning desire on the part of the people for my nomination. I feel sure they want Smith."
We may not owe Mr. Walsh the presidency, but we certainly do owe him something for his eyesight, honesty and frankness.
Jim Watson is still wearing smoke-colored glasses.
Yours, WILL.

RECOVER GORDON'S BODY FROM SHENANGO RIVER

River Gives Up Body Of Man Who Leaped In After Battling Police
Found Half Mile Downstream From Point Where He Disappeared

Body of Thomas J. Gordon, aged 24, of 20 North Cedar street, missing since the night of Monday, April 23, when after a gun battle with several members of the police force at White street, Gordon made his way to the intake of the Carnegie Steel company plant and jumped into the swollen waters of that stream, was recovered late Saturday afternoon nearly a half mile downstream from the point where he jumped in.
Police, from the first, were convinced that Gordon must have died in the waters of the stream, but when a thorough search along and in the river a day or two later failed to bring results, especially when some dynamite was used, it was considered questionable as to where the body might eventually be found.
Body Is Seen.
Officer Clarence Campbell was advised about 4 o'clock Saturday afternoon by a radio operator that there was a body in the Shenango river in what is sometimes known as the Horseshoe (Continued On Page Two)

Lions Meeting In Convention At Norristown

State Convention Is In Session; New Castle After Next Gathering

BIG EFFORT BEING MADE BY DELEGATES

Selection Of Next Convention City To Be Made On Tuesday After-noon

(International News Service.)
NORRISTOWN, Pa., May 7.—Scores of delegates and visitors to the Pennsylvania Lions' convention beginning here this afternoon and continuing through Tuesday were here today. Many early arrivals came in late yesterday by automobile. More than a thousand members and hundreds of their friends and relatives from all sections of the state are expected.
The first official business was to get under way following a luncheon when Harry Baldwin, president of the local club, welcomed the visitors.
To Visit Shrine.
The high spot of today's program is the entertainment, held for "stunt night" this evening when each club in the state will put on a vaudeville act. Valley Forge Memorial Shrine will be visited tomorrow and Rev. Dr. W. H. Burke, an honorary member, will (Continued On Page Two)

ROUMANIAN PEASANTS MARCH ON BUCHAREST FOR DEMONSTRATION

Should Thousands Of Peasants Be Thwarted In March, Disorder May Arise

Demand Resignation Of Rumanian Cabinet; Queen Marie Remains In Background

(International News Service.)
BERLIN, May 7.—Thousands of Rumanian peasants who took part in the Alba Julia convention which demanded the resignation of the present Rumanian cabinet, are marching upon Bucharest to make a gigantic demonstration, according to advices received this afternoon from German correspondents who crossed the Transylvanian frontier from Alba Julia to avoid the Rumanian censorship.
Intentions Peaceful.
While leaders of the peasant army claim that their intention is peaceful, danger of a real uprising is believed to be acute if the peasants are thwarted.
Correspondents described the march of the picturesquely clad peasants as a modern crusade. Men, women and children are in the caravan. Old and young are trudging on foot or riding in heavily lumbering wagons drawn by oxen. Some of the more prosperous are riding in automobiles. The mountain passes are jammed with the swarm of human (Continued On Page Two)

"Derby" Runners Have Trek Of 64 Miles For Today

Longest Stretch In Any Day Since Race Was Started

WILL PASS SOUTH BEND FOR NIGHT

Sixty-Five Runners And Walkers Are Still Keeping Up Stride

By LELAND C. LEWIS.
(International News Service.)
GARY, Ind., May 7.—C. C. "Cross-Country" Pyle's caravan faced the supreme test today when they moved out of here for Mishawaka, their sixty-fourth control, 64 miles East of here and the longest trek that they have encountered since leaving Los Angeles March 4.
South Bend, originally scheduled for the night control, was cancelled Sunday night by Pyle who wired that he had decided to move the caravan four miles further on. Pyle announced that he would rejoin the caravan today to outline details for the drive that is scheduled to put the survivors of a field of 65 in New York by May 26.
Indians Lead Day.
True to toughened test traditions, Indiana's favorite sons, One-Armed McMurry, Indianapolis, and John Stone, of Marion, led the caravan of callouses into Gary.
The pair, out of the field of 65, covered the 28.4 miles from Chicago in 5:31:07.
McMurry, eighteenth in the race, has covered the 2,480.7 miles from Los Angeles during the past 64 days in 513:16:42.
Stone's elapsed time, 602:34:47, advanced him to thirty-sixth place. John Seio, Passaic, N. J., who led into Chicago Saturday, was third in 324:28, retaining third place in 429:18:13.
Peter Gavuzzi, race leader, tied for fourth with Ed Gardner, Seattle, who is in 3:32:25. Gavuzzi's elapsed time, 394:48:25, gives him a lead of 6 hours 9 minutes 23 seconds over Andy Payne, youthful Oklahoman who tied with Seth Gonzales, Denver, and Louis Perella, Albany, N. Y., for seventh place in 3:34:50. The Britton thus increased his edge 6 minutes 25 seconds during the day.
Olt Wantingmen, diminutive New York Finn, who was struck down by an automobile while running through Cicero Saturday evidenced rapid recovery by finishing sixth in 3:24:50.
Earl Dicks, New Castle, Pa., finished in 3:09:05 for 569:08:55.

Senior High Band Going To Capital For State Honors

Plans Being Made To Enter Local Band In State Competition

TO USE AUTOS FOR TRIP TO CAPITAL

Contest Takes Place On Saturday; Boys To Leave On Friday

New Castle's Senior High school band will compete in the state band competition in Harrisburg on Saturday, May 12. This announcement was made today by Principal Frank L. Orth, coincident with the announcement that the Senior play, "The Poor Nut", had been postponed from May 10-11 to May 17-18, and that half of the net proceeds of the play would be given to defray part of the expenses of the trip to the Capital City.
The decision to send the band to Harrisburg was met with unalloyed enthusiasm by the band boys and will be greeted with nearly as much enthusiasm by the citizens of New Castle. (Continued On Page Seven)

New Castle Girl Wins State Honor

Miss Alene Hyde Takes State Honor In Prize Essay Competition

WINS \$20 AWARD AND OTHER HONORS

(International News Service.)
STATE COLLEGE, Pa., May 7.—John Lark of Shamokin high school and Miss Alene Hyde of New Castle senior high school today were among the six students who won first place in the state division of the national prize essay contest of the American Chemical society.
Miss Hyde took first honors for her essay on the Relation of Chemistry to Agriculture and Forestry.
Lark won first place for his paper on the Relation of Chemistry to Health and Disease.
All first place winners received \$20 in gold and have a chance of winning a scholarship at any leading college or university in the national competition which will be judged by a committee headed by Secretary of Commerce Herbert Hoover.

They're played in the sun and the winter snow, they've played when the weather was cold, and you've said at times that the band was good, they were worth all their weight in gold. Now maybe you meant what you said, my friend, if you did, well show what you mean. The boys need help, need cars and a lot of long green. If you have a car and you want to go, put your name on the dotted line, but failing that, there's another way. Some cash would assist them fine. You've told us the band was a splendid one, now show that you mean what you say, kick in with a trifle to send them down, its fifty-seven today.

PA NEW OBSERVES

Downtown streets Sunday presented a spectacle that did not do any benefit to eyes. The streets were littered with paper and in East Washington near North Mercer street straw was littered through water, which gave all the appearance of a banyard. Perhaps it would not be a poor idea to start sweeping streets at night, followed by a good flushing. There isn't much likelihood of the water coating the streets with ice.

Some progress is being made on Wilmington avenue in repairing some of the worst depressions in the street having. Let the good work continue. There is no reason for this thoroughfare, one of the most traveled in the city, not being in good shape. And there are other streets that also need attention because of trench excavations having dropped below the paving level.

New Castle's delegation of Lions is working hard at the convention being held at Norristown, Pa., to bring the next state convention to New Castle. Many telegrams have been sent from this city in support of the delegation that is on the field, and there are high hopes of landing the convention for 1929.

There are still some auto drivers who do not realize the congestion that is caused by parking their cars double on the street. Especially is this true of the conditions that now and then exist on North Mill street. Frequently auto drivers stop, get out of the cars and leave the cars standing near the middle of the street while they go into stores.

Fire has accomplished one thing that few will regret. The eyesore that has existed along the Wilmington road, near Clover, for several years is noted as a fire ruin by autoists passing by during the past few days. The old shack burned to the ground.

From the multitude of blossoms seen on fruit trees throughout Lawrence county at the present time, there should be an abundance of fruit next fall, unless a freezing weather spell interferes in the next week or two.

With the ever-increasing number of hot dog stands springing up along the state highways it should be but a short time before our unemployment problem will be fully taken care of.
And that reminds us of another. One would hardly think that there was any semblance of truth to the reports broadcast around the country during the winter of business depression, if one were to judge the situation by the thousands of shiny brand new cars that are to be passed on the highways on Sundays most of all the drivers being out merely on a pleasant jaunt.

Whatever can be said about New Castle, there is one thing that the Babbitts must admit: the in- (Continued On Page Two)

Two Women And Four-Year-Old Child Drowning Victims At Lock Haven

(International News Service.)
LOCK HAVEN, Pa., May 7.—Boys today were attempting to locate the body of four-year-old Gladys Swayer, who with her mother, Mrs. George Swayer, 24, and Mrs. Margaret Pisano, 24, were drowned late Saturday night when the boat in which they were crossing the Susquehanna river sprang a leak and sank.
Two other persons in the boat, James Conti and Miss Margaret Krebs of Renovo, were able to swim and keep afloat in the swift current until rescued by Michael Conti, of Pittsburgh, who put out in a life boat from the opposite shore. The three persons drowned were also of Renovo. The bodies of the women were carried about eight miles down stream before they were recovered.

Bridge Approach To Be Secured

Council Would Condemn Property Needed For North Street Bridge

FORMAL MOVE IS MADE AT SESSION

During councilmanic session at the city building today Councilman Clayton Reeves introduced an ordinance which would condemn and appropriate land of J. R. Hodge, Second ward, for the purpose of widening North street from its intersection with Nesquehanna avenue across the Nesquehanna river to its intersection with Croton avenue.
The action is one more move to secure a bridge across the creek decided upon by traffic experts as a means of alleviating traffic conditions here.
The city owns 22.5 feet which can be used as an approach. There is also a ten foot alley available and when the Hodge property 28 feet wide is condemned and appropriated, the street will be 60 feet wide.
The measure introduced by Reeves with the sanction of colleagues, provides for the assessment and payment of the damages and the benefits resulting from the widening at grade and for the taking of the land.
The ordinance has been sent to committee.

Butler County Man Is Shot To Death

(International News Service.)
BUTLER, Pa., May 7.—A mother and her two young sons were held in jail here today in connection with the death of her employer, Leroy West, 50, found shot to death in his home at Kildoo Mine No. 2, near here, last night. The woman is Mrs. Anna Colbert, 50, housekeeper for West, and the boys are James 13, and George 11.
Butler County Detective Frank T. Wigton declared West was killed by a bullet fired from a rifle by George, who, according to Wigton, intended to aid his mother in a quarrel with West. The bullet penetrated West's right temple.

Police Arrest Man Dressed As Woman

John Bost, alias "Francis," a stranger in New Castle, was recorded on the police docket early this morning, but the average person would have had considerable misgivings as to the appropriateness of the entry, had they been able to see the prisoner, or had they heard the soft melodious voice of the prisoner, calling a sister over telephone this morning, asking for money with which to secure her (excuse me) his release from the city jail.
Shortly before two o'clock this morning, when Officer Llewellyn overtook a tall slender built "woman" walking up West Washington street, just beyond the Shenango river bridge and began to question "her".
When "she" admitted to being a man dressed in woman's clothing, Officer Llewellyn proceeded to call the central police station and had "her" placed in the ladies department of the city jail.
This morning, owing to the fact that Bost as he desired to be known admitted to having been masquerading in women's clothing, a fact that (Continued On Page Two)

Liner Caronia Rams Dredge And Sends Her To Bottom; Rescue Part Of Crew

(International News Service.)
NEW YORK, May 7.—Three members of the crew of a sand dredge were reported drowned when the dredge was rammed and sunk by the Cunard liner Caronia at 4 a. m. today off Stapleton, Staten Island. The Caronia came here from Boston.
Part of the dredge's crew of eighteen men swam ashore and others were saved by rescue crews from the White Star liner Adriatic, first reported today.
The dredge sank in about thirty-five feet of water. The top of its mast was visible above the water line. Damage to the Caronia's bow was slight. It anchored near the sunken dredge after the collision.
Seafaring men were unable to understand how the Caronia happened to be so close to shore. The dredge's anchor lights were burning. It was said there was no fog.
The collision occurred off pier 15, Stapleton.

NEW YORK, May 7.—Governor Fred R. Zimmerman, of Wisconsin, who hastened here by airplane today had an appointment with the Bremen sailors to urge their making a visit to Madison, capital of his state. In the American tour which the aviators began Wednesday.
It is one of many pleas pouring in upon Baron Von Huenefeldt, Major Elzmarie and Captain Koch, to expand their itinerary beyond its scheduled fourteen days.
The ship in which the mid-westerners flew to New York was undergoing repairs at Mitchell Field. A storm forced it down Saturday night at Seabrook, Pa., where Governor Zimmerman dedicated a new airport.

Congress May Be Forced To Extend Adjournment Date

"Big Three" Among Legislative Items May Hamper Early Adjournment

COOLIDGE GIVEN IMPORTANT BILLS

Leaders In Both Parties Insistent That Flood Relief Bill Be Enacted

(International News Service.)
WASHINGTON, May 7.—The "big three" among legislative items, farm relief, flood control and tax reduction, today threatened to keep Congress in session for another month.
Administration leaders, originally planned to adjourn May 19 and have not yet abandoned their intention of sending Congress home two weeks hence if the "big three" can be enacted by that time. Falling in this adjournment will be for May 26, just sixteen days before the Republican convention meets in Kansas City.
Democratic leaders have offered no opposition to the May 19 adjournment date, providing the "big three" are enacted. A group of Democrats, however, have insisted that Congress remain in session all summer long if the flood relief bill fails of enactment for any reason whatsoever.
A series of presidential vetoes already suggested for both the farm relief and flood control bills, probably would delay the adjournment date, particularly if Congress failed to override a veto of the flood bill. In such a case, a recess probable would be taken for a month and both House and Senate return here after the Democratic convention in Houston.
May Over-Rule Veto.
Administration leaders, however, were hopeful of clearing up the "big (Continued On Page Two)

Change Of Venue Appeal Denied

Herron To Be Tried At New Philadelphia For Woman's Death

(International News Service.)
NEW PHILADELPHIA, O., May 7.—A motion for a change of venue in the trial of William D. Herron, 41, alleged slayer of his sister-in-law, Miss Viola May, 23, was denied in Tuscarawas county court here today by Judge Eli E. Lindsey at the opening of Herron's trial.
Selection of the jury was then begun from a panel of 75 persons, 15 of them women.
Herron had entered a plea of not guilty more than a month ago. Miss May's body was recovered from the Tuscarawas river near Dover, March 26, more than a month after Herron confessed, according to authorities, that he threw her body into the stream after choking her.

(International News Service)
LONDON, May 7.—Religious service will be held at the North Pole for the first time in history when Gen. Umberto Nobile who will fly to the Pole in his exploration ship Italia, lands a party to plant the wooden cross given to him by Pope Pius XI in the ice on the top of the world.

Advices from King's Bay, Spitzbergen today gave details of Nobile's plans for exploration flights from that point to the pole and to other destinations in the Arctic.

The Italia arrived at King's Bay from Vadsø at noon yesterday after a stormy flight. The balloon had to battle adverse winds nearly all the way. It landed in a snowstorm.

Anniversary Service At St. Paul's Church

Celebration Of The Present Pas-

80th Anniversary
Of Church

Anniversary services were conducted in St. Paul's Evangelical Lutheran church on Sunday, May 6, in observance of Rev. A. M. Stump as having served as pastor for the past three years and anticipating the congregation's approaching 80th anniversary on August 28, 1928.

Of the twenty-seven original charter members only one family name is on the present active membership list and that is the Knudsen family. Miss Margaret Knudsen being present at the services and representing the only original founders of St. Paul's church.

Much progress has been made during the last twenty years in the work of the church. During the present pastorate one hundred and two persons were added by baptism, one hundred and seven by confirmation and seventy five by transfer and confession of faith. Forty-five couples have been married by the pastor and there have been fifty-three losses by death.

During the last two years St. Paul's Sunday school held the record of the highest average percentage in the West Conference. The congregation has contributed to all purposes \$36,950 during the past three years.

In the past few years the congregation was fortunate to add very valuable property with holdings in view of some day building a new church.

The property at 301 North Jefferson street now used as a parsonage was purchased in 1924 and in 1925 the property at 305 North Jefferson street was purchased to safeguard the other properties.

habitants go to church. To bear witness to this, one has only to stand on Washington street for one hour, say between seven and eight, on Sunday evening. At seven the street is almost deserted. Cars pass, to be sure, but there are few pedestrians to speak of. But later the street just teems with life. At eight o'clock activities suddenly cease. Then, if one wants further proof, he has only to wait another hour, when he will see the same people returning.

Although Highland avenue is posted and the posters say that a speed limit of fifty miles an hour has been set, how many pay much attention to it? This morning there was almost another wreck at the corner of Grant and Highland; an automobile and a street car almost collided. And the automobile was exceeding the speed limit.

Speaking of crashes, those trees that line Highland avenue between Grant and Stewart Place bear witness to many. For about three feet their trunks are scarred and broken. Telephone poles are the same.

When the ornamental iron gate is placed at the head of the walk leading up to the rear entrance of the Scottish Rite Cathedral, it will truly be one of the "show places" of the city. Already there are two rows of Lombardy poplars along the walk, which says the manager, are to be placed there just temporarily until other trees grow.

First detour map issued by the State Highway Department for the summer has reached The News, and has been posted in the lobby of The News for the benefit of motorists. In addition to detours, the going schedules for the week are also presented in the map this summer.

Work of paving Sheridan avenue is progressing rapidly. Concrete for half of the street has already been poured, and probably by the first of June this street will be open for traffic as a completely paved thoroughfare.

Next Sunday is Mother's Day.

Announcement made by Herbert Pears of the newly organized Civic Music Association, that it is planned under the new organization to continue the work of providing concerts by the stars for the junior and senior high school students of New Castle is one that is received well. In fact, there is little likelihood of any organization receiving support in the future that would not contain excellent work that has been carried out by the Educational Art Society at the direction of Prof. La Verne Irvine and Prof. Frank Burton. These two school men pioneered in this project in New Castle and this city put over a program that was unknown in any other city. The benefits achieved by the past few years of the Educational Art Society work for the school children should be continued.

RECOVER BODY OF GORDON'S FROM SHENANGO RIVER

(Continued From Page One)

Bent near the joining points of the Shenango works and American Can company properties.

He at once advised the central police station and Detective John Young and Officers Charles Longstreth and M. E. McMullen were detailed. They found that the body was in a mid-stream face downward. They were joined by Officers Richards and Thomas.

It took but a short time to determine that a boat was needed to get the body to shore. Detective J. Young asked the Carnegie Steel company for a boat, which was forthcoming immediately and made the rescue of the body certain.

Boat Is Procured.
Joseph Rigby and several employees of the plant loaded the needed boat on a flat car and an engine was connected to it and it was hauled to a manuevered and it was hauled to a place near where the body had been seen. Coroner J. P. Caldwell was then notified and viewed the body.

Detective Young and Mr. Rigby were rowed out into the river, succeeding in putting a towline on the body and bringing it to the shore. Once at the shore, it was soon placed in an ambulance and removed to the funeral home of the Mahoning Undertaking company in the evening, where it was prepared for shipment to the former residence of the deceased man in North Carolina.

Examination of the clothing and body developed the fact that apparently Gordon had thrown away any guns that he had on his previous trip jumping into the Shenango river on the evening of April 23, when it is said that he broke the window of the Rohrer gun shop on Water street. It is also reported that a large tool of a special make from the window, in addition to the one he is said to have had on him previous to breaking the window.

It will be remembered, how Detective C. G. Logan and Officer Robert Dukes, accompanied by Roy Gaston, came upon Gordon at the point where the Pennsylvania railroad crosses White street and a cattle truck all sides that a veto of the flood bill will be over-ruled. This would pacify the most belligerent group, which is demanding an all-summer session.

The legislative situation has become complicated. The tax bill enacted by the House, is now before the Senate. It will have to go to conference after it passed the Senate. It probably will not be finally enacted for another three days.

The flood bill reported back to both House and Senate by conferees in a compromise form, following enactment by both branches, has aroused presidential opposition. An effort is being made at the White House to iron out all differences.

The farm bill is now in conference, having passed both House and Senate but in slightly different form. It probably will be sent to the White House for presidential approval or veto by the end of this week.

The new merchant marine bill, enacted by both branches, is also in conference, with many differences to be adjusted. It may be reported back in compromise form to both House and Senate this week and finally enacted.

There were reports, though, that the differences could not be compromised and such an impasse would kill the bill.

The new naval building bill, carrying a \$274,000,000 authorization for sixteen new warships, was reported to the Senate last week after passing the House. It may be enacted early next week, if it can displace boulder dam legislation in the Senate.

The boulder dam bill faced rough sledding. It held a privileged spot in the Senate but with strong opposition against it, it has yet to pass the House. There were indications that it would be killed by a filibuster if any definite date is fixed for adjournment.

FIVE NEW CASES
Five new cases of measles in two families today were reported to the city department of health. The patients are Donald and June Schenker, 4 and 4 years old, 817 State street, and Ruth Donald and William Burns of 418 Elizabeth street.

The huge crack in the Pickens county side of the dam has been widening steadily, and now reaches from the top to the bottom of the dam. The break was 30 feet wide at the base and tapered off to 10 feet near the top, where it widened again. It was only at the bottom, however, that the water had seeped through, and gushed into the Saluda creek in a 15 foot stream. Crews have trenched the sides of table rock mountain in an attempt to prevent the drainage from seeping through the end of the dyke which connects with the mountain.

The plan of Col. J. L. Ludlow, of Winston-Salem, N. Carolina, the engineer who constructed the dam, of placing sills about the drain-pipe has been abandoned. The bag would not prevent erosion, as it had been believed.

The rain added to the discomfort of thousands of refugees who fled from their homes in the lowlands Friday night, when the danger alarm was spread through the valley. As yet, officials said, there was no suffering. In event of the giving way of the mammoth Table Rock Cove dam, it was feared that six other large mill dams further down the stream could not withstand the sudden rush of water, and would crumble also. If the big dam collapses all at once, the entire lowlands of the valley will be inundated, it was believed.

There are people who not only will do a dirty trick but will turn right around and lie about doing it.

He proposed to her in the automobile and she accepted him in the hospital.

CONGRESS MAY BE FORCED TO EXTEND ADJOURNMENT DATE

(Continued From Page One)

three by the end of May, even though the president vetoed both farm and flood bills. The farm bill probably would fail of enactment over a veto, but there were indications on all sides that a veto of the flood bill will be over-ruled. This would pacify the most belligerent group, which is demanding an all-summer session.

The legislative situation has become complicated. The tax bill enacted by the House, is now before the Senate. It will have to go to conference after it passed the Senate. It probably will not be finally enacted for another three days.

The flood bill reported back to both House and Senate by conferees in a compromise form, following enactment by both branches, has aroused presidential opposition. An effort is being made at the White House to iron out all differences.

The farm bill is now in conference, having passed both House and Senate but in slightly different form. It probably will be sent to the White House for presidential approval or veto by the end of this week.

The new merchant marine bill, enacted by both branches, is also in conference, with many differences to be adjusted. It may be reported back in compromise form to both House and Senate this week and finally enacted.

There were reports, though, that the differences could not be compromised and such an impasse would kill the bill.

The new naval building bill, carrying a \$274,000,000 authorization for sixteen new warships, was reported to the Senate last week after passing the House. It may be enacted early next week, if it can displace boulder dam legislation in the Senate.

The boulder dam bill faced rough sledding. It held a privileged spot in the Senate but with strong opposition against it, it has yet to pass the House. There were indications that it would be killed by a filibuster if any definite date is fixed for adjournment.

FIVE NEW CASES
Five new cases of measles in two families today were reported to the city department of health. The patients are Donald and June Schenker, 4 and 4 years old, 817 State street, and Ruth Donald and William Burns of 418 Elizabeth street.

The huge crack in the Pickens county side of the dam has been widening steadily, and now reaches from the top to the bottom of the dam. The break was 30 feet wide at the base and tapered off to 10 feet near the top, where it widened again. It was only at the bottom, however, that the water had seeped through, and gushed into the Saluda creek in a 15 foot stream. Crews have trenched the sides of table rock mountain in an attempt to prevent the drainage from seeping through the end of the dyke which connects with the mountain.

The plan of Col. J. L. Ludlow, of Winston-Salem, N. Carolina, the engineer who constructed the dam, of placing sills about the drain-pipe has been abandoned. The bag would not prevent erosion, as it had been believed.

The rain added to the discomfort of thousands of refugees who fled from their homes in the lowlands Friday night, when the danger alarm was spread through the valley. As yet, officials said, there was no suffering. In event of the giving way of the mammoth Table Rock Cove dam, it was feared that six other large mill dams further down the stream could not withstand the sudden rush of water, and would crumble also. If the big dam collapses all at once, the entire lowlands of the valley will be inundated, it was believed.

There are people who not only will do a dirty trick but will turn right around and lie about doing it.

He proposed to her in the automobile and she accepted him in the hospital.

ROUMANIAN PEASANTS MARCH ON BUCHAREST FOR DEMONSTRATION

(Continued From Page One)

tered units of soldiers and police have joined the peasants.

Telephone and telegraph communication with Alba Julia has been cut since late Sunday.

Heavy forces of armed troops are reported patrolling the Bucharest streets.

The distance from Alba Julia to Bucharest is 245 miles and the peasants will begin to reach the capital before the end of the week unless they are stopped.

Queen Marie, who has been a powerful figure in welding the political policies of the Bucharest government, is remaining in the background.

It is reported that heavy forces of picked troops are guarding the royal palace and a special bodyguard has been provided for young King Michael. The real storm center is Vintila Bratianu, brother of King Michael, who died last year while holding the office of prime minister.

Prince Would Return.

LONDON, May 7.—Former Crown Prince Carol of Roumania, who is living temporarily in Surrey, declared today that he would return to Bucharest to mount the throne if the peasant party wants him to go back.

Carol, who recently came here from Belgium, accompanied by Madame Magda Helena Lupescu, is watching closely the events in his native land in view of the great peasant party convention at Alba Julia. He said he expected some important development in Roumania before tomorrow night. "I am not making a bid for my son's throne," Carol said, "but how can a boy of seven step into his father's place without his father's permission? When I go it will be to assume the throne which is mine by right."

LIONS MEETING IN CONVENTION AT NORRISTOWN

address the members in Washington Memorial chapel. State Senator James Boyd will preside as toastmaster at the closing banquet at the state hospital here Tuesday night.

One of the strongest boosters for the 1929 convention was New Castle, whose delegation is positive the western Pennsylvania city will be host to the Lions next year.

New Castle Sends Delegation.

Eight members of the New Castle Lions club, bent on getting the 1929 convention of the Pennsylvania state division of Lions International for this city, left Sunday morning for Norristown, Pa. where this year's convention is being held, according to Thomas I. Elliott, secretary of the local club.

Those Lions who made the trip are A. H. Bartlett, Earle V. Ramsey, Jay I. Reed, John Ellison, T. M. Shaffer, William Gordon, Ezra Marvin and Anthony Marino.

The convention at Norristown began this morning. New Castle delegates will be assisted by the local Chapter of Commerce, the Scottish Rite Cathedral association, The Castleton and 15 industries of the city in seeking the convention. All of these institutions have sent letters and telegrams to every Lions club in the state, urging them to consider New Castle as the next convention city.

The voting will take place Tuesday afternoon, and the New Castle delegation expects to return home Wednesday.

MADAME RYAN IS

HERE ON VISIT

Madame Charlotte Griffith Ryan, a New Castle girl, who has more than made good in the Metropolitan Opera, is in New Castle today visiting her mother, Mrs. May Griffith, and her relatives and friends in the city. During her stay here she is at the home of Mr. and Mrs. James H. Eagan on Croton avenue.

During the week just past the Metropolitan made its annual visit to New Castle. On Monday she sang the Duet in Hensel and Gretel and on Friday afternoon sang the High Priestess role in Aida. She will leave Tuesday for New York to prepare for an engagement in Brooklyn on May 13, and for other summer dates.

Because of the rigors of the past season Madame Ryan will do little concert work this summer, preferring to rest and study. The Metropolitan season will open early this year and casting for the new operas has already begun. There is much new music to be learned and because she has already been assigned some important roles, the New Castle girl will devote much of her time to studying.

Rise to the pinnacle of musical success is a source of satisfaction to her many friends and former schoolmates here. Starting as a student singer in the New Castle high school, she has advanced until today she is a soloist in the world's greatest musical organization, the Metropolitan Opera. The hope of every New Castle citizen is that she will go even farther in her chosen field of endeavor.

C. C. Class

Members of the C. C. class of the Croton M. E. church with their husbands and friends as guests entertained at a luncheon in the church dining room, Friday evening, honoring Miss Vivian Remley, who is leaving the church.

Peach blossoms, and tall pink tapers, centered the table and a tempting menu was served.

Music and games were pastimes of the evening, and the guest of honor was presented with a handsome gift. Prizes of the evening were won by Miss Vivian Remley, and Harold Walton.

Wedding Announcement
Miss Mary Hoover of Youngstown, O., and Virgil Roberts, son of the late Rev. Lord Roberts, and Mrs. Roberts, of Youngstown, O., were married at the parsonage of the First Congregational church Sunday at noon. Rev. Samuel Whitting officiated with the ring ceremony.

Both Mr. and Mrs. Roberts are well known in this city.

GIRL SCOUTS

Minnehaha Troop

The Minnehaha troop of Girl Scouts met on Saturday with 23 girls present. Five girls passed their compass work, namely Mary Christman, Grace Baader, Wilda Reher, Enay Lou Smith and Helen Whitlock. Mrs. N. A. Martin helped the older girls with their citizenship work.

Plans were made for a trip to the woods for next Saturday if the weather permits, details of which will be announced later. Wilda Reher was invested as a Girl Scout and received her Scout pin.

PARDONS AND CRIME IN PENNSYLVANIA

ON SATURDAY word reached The News through its Harrisburg bureau that the state pardon board had issued a pardon to Willie Fisher who was serving a fifteen year sentence for participating in the daring and sensational hold-up of the Union National Bank in this city several years ago.

Fisher had served only a small part of his sentence. At the time of his arrest and his appearance before the Lawrence county court he entered a plea of guilty to the charge and went before the court for sentence. Several others who took part in the hold-up in which some \$58,000 were taken from the bank were never captured, and he gave no aid in locating them. They escaped without any penalty.

The sentence of the Lawrence county court at the time that Fisher was sent to the penitentiary was believed in this community to be one that was just and commensurate with the crime.

Here it is but a few years since that sentence was imposed and Fisher has been liberated by the action of the state pardon board. Such procedure on the part of the pardon board will raise in the mind of many citizens the question of whether or not a considerable share of responsibility for continuance of the so-called crime wave cannot be attributed to such action as that taken in the case of Willie Fisher.

It is the hope of most every person that takes part in daring crimes and is captured that after a few years—when the particular community that was shocked and stirred by the crime will have largely forgotten—that application for a pardon will be favorably acted upon.

In too many cases the sentence of the court does not mean what is says, because of later action of a pardon board body.

There is little question in our mind but that the institution known as the pardon board has a bearing on the amount of crime that has been reported of recent years in this and other states of this country.

ANOTHER BILLION PAID

ON JUNE 30 when the treasury department writes another billion off the national debt the United States will add another chapter to the most amazing story in the history of public finance. In nine years the nation has reduced its war debt from \$26,000,000,000 to \$17,500,000,000. It is a remarkable record and one that is a credit to even this fabulously wealthy and prosperous nation.

This money was borrowed by the government from its own people and a large part of it was loaned to America's allies in the World War, but most of the \$8,500,000,000 repaid in the nine years ending June 30 was from American taxpayers, not from European debtors.

Vast treasury surpluses year after year have made possible this rapid retirement of the public debt and if continued will wipe out the debt long before the time predicted by the treasury department. But the day of large surpluses in the national treasury seems to be at an end. The zeal of surplus-spenders and tax reductionists is making large excesses of revenue very unlikely in the future.

Even though there are no surplus funds in the treasury to apply to the debt, it will be wiped out by 1947 by sinking funds and foreign payments. So at the most the taxpayers will be relieved of this burden in nineteen years.

One of the reasons the public has been so insistent on retiring the war debt quickly is the interest payment on that debt, which annually eats up millions of tax dollars. These are the dollars the taxpayers begudge.

FORGING AHEAD IN THE AIR

SO SWIFTLY that millions of Americans hardly realize it, the United States is becoming one of the world's outstanding nations in the air. There was a day when America did little in the air. American flying faltered sadly after the war. Military aviation waited while the services wrangled over the comparative merits of battleships vs. bombing planes.

In the country that gave the world heavier-than-air navigation flying lagged. Congress was dazed and confounded.

Nevertheless, and thanks to army and navy fliers, the United States managed to make and hold most of the records for air performance. In design and special development this nation was near the top, but it was far down in plane production and in the commercial use of aircraft.

That was in 1923. By 1926, when the badly needed Air Commerce Act was passed, America had lost most of its hard-won records. The French had set new marks for sustained flight, for distance flying and for altitude. Then Italian planes and Italian fliers took away from the United States the last of its important international trophies, the Schneider Cup.

Buy Americans were busy then and since in laying the foundations for what has been the most amazing period in the history of aviation. The air-mail service and army and navy were training such men as Lindbergh, Bennett, Bertaud, Byrd and a score of others who in recent months have made air history and won back for their country most of the air trophies.

America's leadership in the air is to be further assured by extension of air-mail and air-express routes, construction of four giant dirigibles and many blimps and planes for the government air service, and a rapid growth in the nation's commercial air lines.

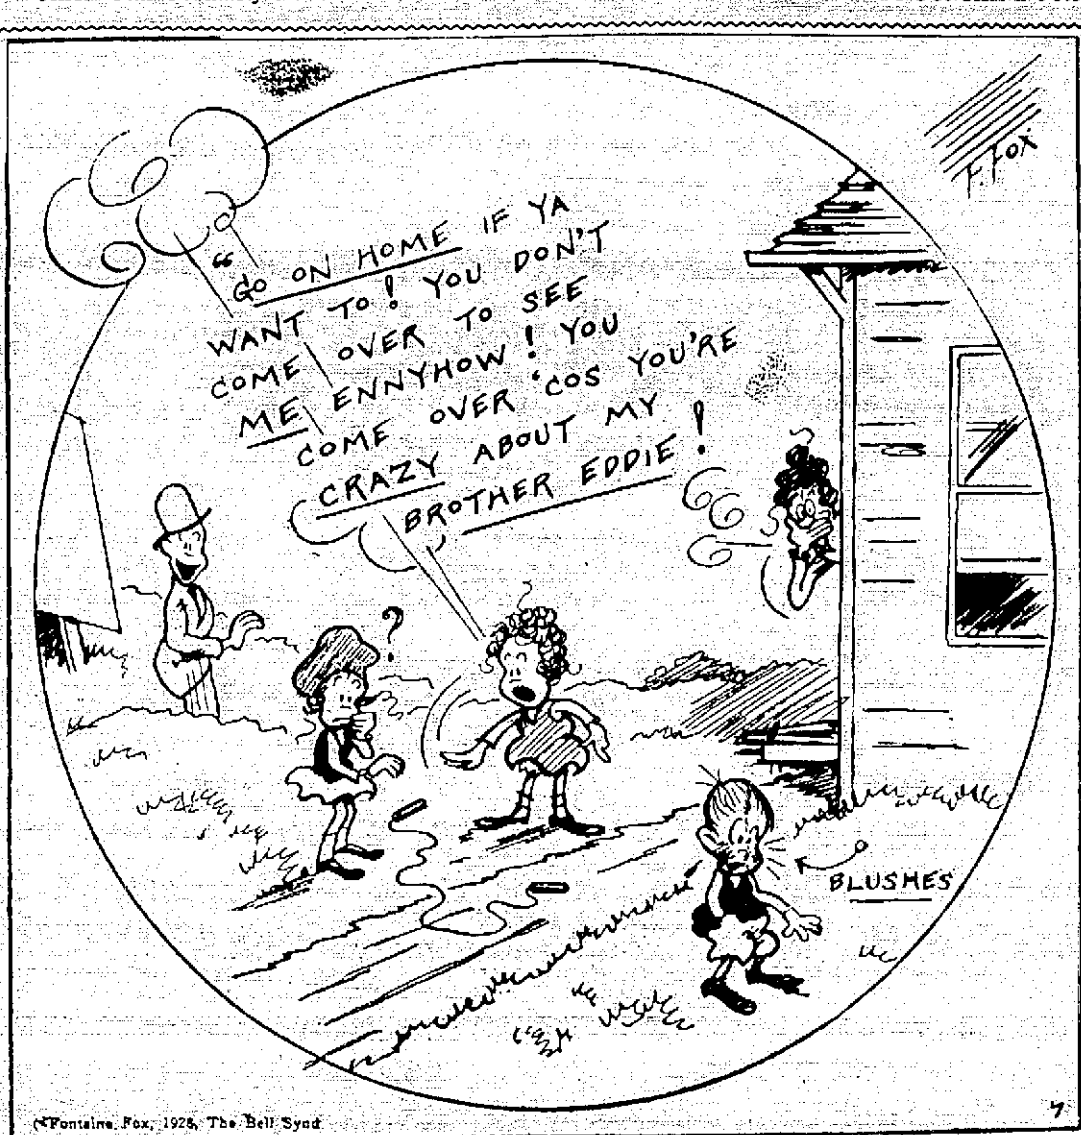

Even if wealth is a burden lack of it is more so.

Hints and Dints

Sun sets tonight 7:02.
Sun rises tomorrow 4:50.

It's shameful to love money itself so well that the loss of it can rob your life of sunshine.

France is going to try and regulate foolish flights. France shows some real human intelligence once in a while.

About the nicest thing that can be said about a man is that he is NOT a crook.

Two New England boys sitting on tree stumps were whittling some good Vermont maple wood. Clouds covered the sky, a rain seemed imminent. One boy called to the other, "Call!" Only the knife whittling the wood replied. "Call!" Still no response from the whittler. "Call, I say, do you think it's going to rain or clear up?" After a long and thoughtful silence, the whittler turned around, "What are you trying to do, pla me down?"

There hasn't been a building built in New Castle for some time when some crooks have "not stood" around trying with their mouths or some other horrible instrument, to stop work on it or hinder it in some way. How long are the people of New Castle going to stand for these destroyers—architects, pure and simple.

In many parts of this country they celebrate what they call "Blossom Time." Right here in Lawrence county when the wonderful apple, peach and other fruit trees blossoms are out, which will be in a few days, we can celebrate a blossom time better than any place in this country. We will have the blossoms this year, all right!

The Bremen fliers in their tour of the United States will not visit Cleveland or Pittsburgh and the nearest to this city they will come will be Philadelphia. For some reason or other, enthusiasm waned in some places after the famous fliers leave.

It is not good form to blow your nose first thing you do when you sit down to a luncheon or banquet.

You don't expect smokers to pass a law against smoking.

Careless cig smokers, who throw their ends of sticks away, and the burning of thousands of dollars worth of timber in this state this spring. The cig is not dangerous until it is partly smoked and then tossed into a place where it can do the most damage by some bird who only uses his head to hold on his ears.

RESOURCEFUL
There was a young girl named Siela. Who went to the show with her fella. And when she got there Her compact was bare So she rubbed on a piece of marsh-mella.

As long as people who own chickens allow them to destroy the gardens of their neighbors, the Christian spirit will be handicapped in its development. Chickens should be treated like dogs are under the law. We would not poison a dog or a chicken, but we do not have much sympathy for people who allow their chickens to go where they get poison. One of the worst dog poisoners we ever knew said, "I never put any poison for a dog on any other property than my own and it's the dog's business if he gets it."

One of the world's leading chemists died in Philadelphia a few days ago of pneumonia. This is another proof that men die when their time comes. That chemist had everything a human could have to save his life, but he had to die.

In Detroit speed-law violators get a vacation of from 10 to 90 days in the prison farm. They are received at the gate and numbered and card-indexed like convicts. Then are outfitted with prison overalls and set to work. A score of speeders are now using long handled shovels in a grav-

el pit. Others are laying tile for a drainage system. A bugle route then out at 8:30 a. m. They are on the job at 10 a. m. quit at 5 p. m. and hit the hay at 10 p. m. It's a great life and the food is rather plain. One experience usually effects a cure.

Alcohol was first discovered in Arabia, so maybe that why Arabian nights were so wonderful.

Heard at the corner of Mercer and Washington streets: "See that man over there? He's done his duty. He's lost six sons at college."

Four billion birds in America! Well, well. When the bird who sticks out on parked cars is found, there will be 3,999,999,999.

IT ISN'T MUCH FUN TO ENTER-TAIN "COMPANY."

"Company" is a good old-fashioned word that means starched guests. Guests of this type are mere acquaintances. They do not call without an invitation, though at times they call by telephone and ask if they may call in person.

When they arrive they have on their best clothes and best manners. They sit very erect in their chairs and make conversation—manufactured conversation that has neither wit nor interest, and is merely a painful social duty.

If they laugh, they do it politely as though afraid to violate some rule. They agree with all you say and smile dutifully when they think it is time to smile.

They bore you and you bore them; and when they can stand it no longer, they get up to go. Then, for the first time, they show some sign of being alive. A new note of animation and sincerity shows in their voices. That is because they are glad the agony is over.

Friends are not company. They come when they wish and go when they wish; select the chair they like best; sit at ease; talk or read as they prefer; help themselves to fruit without waiting for an invitation; smoke if they wish; go back to the G. E. for a cold bottle in short, make themselves at home and accept without restraint the welcome they know is theirs.

Anybody may have acquaintances. But only the favored of the gods have friends. For real friends are born and not made, and in all the world there are but few who are worthy of your love and able to love you in return.

There are still plenty of ways of getting a lot of things, but reading the old-fashioned almanac is not one of them.

It is said that the leaning tower of Pisa now has a greater degree from the perpendicular. This would seem to indicate the tower is leaner than ever.

A biologist says parents of the great are inferior in many respects, as a matter of fact aren't all parents these days?

The reason I know that the girls in the street cars who try so hard to pull their skirts down over their knees are blushing is because I know if they didn't want their knees to show they would have more material put in the skirts.

WE SURE DID
Dear Fred: Well, anyhow, you had the honor and distinction of getting them all together for once in their lives. We mean all the leading Democratic self-interest. Democratic politicians in the Republican party.

LINCOLN REPUBLICAN
A British publicist describes the House of Lords as "callous, inconsistent, insensible, facetious, selfish, cynical, obstructive, unscrupulous and un-

terly reactionary." One thing we admire about an Englishman is the commendable conservatism of his constructive criticism.

A man in Chicago has been arrested for misrepresenting his views when he was examined for jury service. If they are going to start anything like that in this country of free thought and free action, it may be that more justice will come out of the courts.

If the policy be not just, it is a bad policy.

It is more important to make people think than to educate them.

Mr. Hints and Dints: I do not know who wrote the following—authorship has been lost—but it is worth framing and hanging in every home:

It is not always easy—
To apologize.
To begin over.
To take advice.
To be unselfish.
To admit error.
To face a sneer.
To be charitable.
To be considerate.
To avoid mistakes.
To endure success.
To keep on trying.
To be broad-minded.
To forgive and forget.
To profit by mistakes.
To think and then act.
To keep out of the run.
To make the best of little.
To shoulder deserved blame.
To maintain a high standard.
To recognize the silver lining.
But it always pays.

There are men who believe they are honest and yet practice a small element of dishonesty under the belief that it is shrewdness.

Prohibition agents will watch those who attend the Republican national convention in Kansas City. We might suggest that they also watch the power to be staged in Houston by the Democrats. "One beautiful bright Sunday morning not long ago, when the whole world seemed at peace with itself, we stood on the ground where the Democratic convention house is now being built and several bootleggers approached us and others nearby offering liquor for sale. Personally it means nothing to us, as we are not going to either fuss.

Bears Say, "Woe Is Me, Alabama."
Unpleasant Warnings
Governor Smith, Sure
The Toad Sees Coolidge

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

Mr. Raskob is coming home from Europe. The Bears groaned a bitter groan. General Motors went up to 205; first crossing of the 200 Rubicon, and Wall street again administered punishment, cruel, unusual and unconstitutional to the short sellers.

Again, the enthusiastic bought more than four million shares, and again the Bears learned that selling anything in this country short is dangerous.

Buy something good, not more than you can pay for, and keep it. Don't gamble.

Unpleasant warning, but necessary. The federal government sees danger of another outbreak of infantile paralysis this summer. Dr. Harris, New York's health officer, warns against danger of spinal meningitis.

These diseases, puzzling to science, are as mysterious as were yellow fever and malaria before men discovered that mosquitoes, and nothing else, spread both.

While waiting for definite information, do these things:
Screen doors and windows, using copper screen, that it may last.

Keep flies away from babies and young children, and away from their food.

Pasteurize or boil children's milk. Give foods rich in vitamin content.

Teach children not to put fingers in the mouth or nose—wash their hands well before meals. Teach children that kissing is dangerous, especially on the lips.

And let adults know that their kissing should be limited to their own children. Every adult mouth and throat carries disease germs, latent, that might work havoc in a young child with undeveloped leucocytes protection.

Senator Walsh retires from the race for the Democratic nomination gracefully in favor of Governor Al Smith. So far as Democrats are concerned the nomination is settled. Governor Smith is Democratic presidential candidate for 1928.

Republicans, of whom some, including the high finance contingent, would like to be rid of Hoover, begin to search their souls and think twice about it. Popularity, a name that the people know is a power not to be neglected. Governor Smith has proven that people know him on the Atlantic and on the Pacific. And Secretary Hoover has done the same.

The anti-Hoover Republicans are worrying for "you can't beat somebody with nobody." If they don't take Hoover they will have to select some other man well known to the people and popular. General Dawes would be their man, but he is not Governor. Lowden, a desperate effort will be made to draft President Coolidge with or without his choosing.

The President recently inspected Ringling's sea elephant, showing no interest whatever in the Republican elephant.

And on Thursday, for 15 minutes, he contemplated a horned-toad that sat in a glass bowl on his mahogany desk and blinked. That toad is supposed to have lived entombed in a Texas cornstove for 31 years.

There is no truth in the yarn of course, but Republicans wish that Coolidge would take more interest in their dilemma, and pay less attention to sea elephants and horned toads.

The Pope condemns public gymnastic exhibitions by young girls, especially in Rome. "If a woman's hand must be raised, we hope and pray it may be raised only in prayer, or in acts of charity," said the Pope. He thinks modern gymnastics exhibitions are worse than those in the days of pagan Rome.

They are fortunately not quite as bold as in ancient Greece, when young men and women ran together in races, entirely naked; and, strange to say, thought nothing of it.

It must have been a strange race of men, for the old lawmaker found it necessary to order that girls' skirts be slit on the side from the hip down that the interest of young men might be aroused.

Some think our present display of legs and knees leads toward the entirely undressed condition of primitive man. It doesn't.

The indecency which the Pope denounces often follows great wars. Then it dies out. The human race, alone in all the animal kingdom, is innately modest.

You will probably see quick unpleasant action in China. Forty-six Japanese soldiers were massacred at Tsinan, and other foreigners were killed. Japan sends warships and troops to China, and you will hear of more killings in that unfortunate country.

Dr. Crane's Editorial

DR CRANE'S EDITORIAL RAY

BY DR. FRANK CRANE

There are many tests of the advance of civilization such as the condition of women, the increase of inventions, the use of machinery, etc., but perhaps one of the best tests is the use of soap.

Soap stands for cleanliness and that is a qualification that is quite modern. It is a far cry from the beauty of the past ages whose people rarely took a bath and used perfumes to counteract all bodily odors.

One of the characteristics of Americans and Englishmen is their bath-taking propensities. Some of them carry their bath tubs with them on traveling and the use of bath rooms in European hotels is a significant invasion.

When one gets used to cleanliness it is a luxury. What is more delightful than the smell of newly washed clothes? How lovely to crawl in between sheets that have just been washed!

Speaking of perfumes, probably the most aristocratic perfume, that is, one that stands highest in the opinion of refined people, is the perfume of good soap.

The manufacturer of soap is an intricate process and requires highly specialized labor.

A certain company of soap makers plans making beads of soap like little pearls, seen only under the magnifying glass to consist of hollow spheres with walls approximately five times as thin as those of ordinary soap flakes or chips. They dissolve instantaneously upon contact with water. They are made by dropping heated soap from a tower fifty feet high, the little particles forming into spheres in falling.

This idea in soap making is the culmination of many years of experimentation and research.

Great fortunes and great business successes are built up generally because men can produce something that satisfies an extensive demand.

The more soap used the healthier the people, and the sounder their mode of living.

LOVE SUFFERETH LONG

Something I wrote the other day about Hilda Rose, the heroic little woman who wrote the letters that Little Brown and company have collected into a book called "The Stump Farm." But I didn't finish what I had to say for there was not enough space.

I read these letters, which were not written for publication, but were the outpouring of a lonely soul, bruised by hardship and adversity. I am impressed with the thought; here is one of the permanent documents of American life. The soul of a pioneer is here set out in burning lines.

But something else occurs to me, with this woman, as with other pioneers, it is love that wins the battle. It is love that makes it possible for a frail woman who weighs 86 pounds to labor hard, summer and winter, year after year, in bitter cold and scorching drought. She could not do it for herself. But love lights the road, and she does not think she has done anything extraordinary.

Hilda Rose has an aged and delicate husband to support and attend to. He is often ill, but he is always

kind, and he is the object of a devotion that ennobles the spirits of the giver and the object of it. These two have a little boy, and the slight mother must get food for him; keep him warm, and train his mind.

When the thermometer registers 59 below zero in the Alberta wilderness, Hilda Rose works away in her tent, worrying only lest the severe cold be too much for her weak husband and her precious son. These three know the depths of poverty, but they know the joy of great riches, too. For that mean tent, where everything freezes and life can hardly be supported, contains an epic love. There is never discouragement for this woman knows that she can and must provide for her loved ones.

Love suffereth long, and is kind. Love envieth not; love vaunteth not itself; seeketh not its own. Love beareth all things, believeth all things, hopeth all things, endureth all things. Love never faileth.

These words I select from among others on the same subject, written by the eloquent Paul.

The same thoughts I read between the lines of the heart-breaking letters in "The Stump Farm."

Officials Puzzled Over Pardon Granted To "Willie" Fisher

Cannot Understand Why Their
Protests Were Ignored By
Board Of Pardons

County officials are considerably puzzled over a pardon recently granted to Willie Fisher, Union National Bank robber, in view of the fact that protests were sent to the board of pardons by all the banks of this city and by county officials.

The pardon was obtained through an attorney in Pittsburgh. So far as known, there was no local attorney represented in the case. It was announced in dispatches from Harrisburg that a pardon had been sought for John Doe. Efforts were made at the courthouse and among officials to learn who was meant by John Doe, but nobody was able to throw any light on the situation.

The records at the courthouse showed that when Willie Fisher was arrested his name was first entered as John Doe, but when he pleaded guilty he was sentenced as John Doe, alias William Fisher. This was on June 24, 1921.

In December, 1925, it was first announced that an application for a pardon would be made. This brought a protest from all the banks in the city. It was also signed by former Judge Emerson, the district attorney, mayor, chief of police and all the banks of the city. They were represented at the hearing by Attorney Wylie McCaslin and the pardon was refused.

A second application was made for a pardon at which practically the same protest was made, signed by officials and the banks, and the application was again turned down. A third appeal was made, at which the protest was made by the officials, including Judges Hildebrand and Chambers. Very little publicity appears to have been given to this application and it was not until some time after the pardon board had met that it was announced that Willie Fisher had been granted a pardon.

Officials here think it very strange that it should have been granted over their protests and in view of the nature of the crime.

Konjola Brought New Health All Over His System

Relieved Of Liver Trouble And
General Run-down Condition
After He Got New
Medicine.

"The new Konjola medicine has become a sensation wherever introduced and it has received the same praise in other cities. I have visited just like it is being praised day after day by men and women right here in New Castle," said the Konjola Man yesterday at the Love and McGowan drug store, 204 East Washington street, this city, where large crowds of people from all over New Castle are calling throughout each day to hear his personal explanation of this celebrated remedy.

"The name of Konjola is due largely to its beneficial effects on such important organs as the stomach, liver, kidneys and bowels. Many people who have taken this compound say that it has helped them to restore a normal condition to these parts of the human system. Konjola has also proven unusually excellent in cases of rheumatism and neuritis. Just the other day the following letter was received from Mr. Earl W. Martin, 507 Hillcrest avenue, this city:

"This Konjola is the only medicine of any kind I have found for real relief from a general run-down condition. The entire system," said Mr. Martin, "my health was so bad that life was miserable for me. But everything is different now and I have gained more health than I have for many years."

"My health was in such a disordered state that I never enjoyed myself. For hours at a time I would roll and toss on my bed before going to sleep. No matter how long I did sleep I was always tired and had a drummy feeling that made my work a drudgery. All during the day my head ached and my whole body seemed sore and stiff. My nerves were so weak that I had to rise several times every night and I suffered constantly with severe pain in my knees and the back of my back. I did not have much appetite but what little I managed to eat did not help my body and I was steadily losing weight. Besides this trouble my liver was

sluggish and I had a yellowish complexion. My eyes had a dull appearance and anyone could tell that I was run-down by looking at me. I decided to give Konjola a trial when I read in the papers where another man with a case similar to mine had been restored to health by using Konjola. I was so pleased when I noticed my strength returning that I made up my mind to keep right on taking this medicine until I completed a treatment. With every dose I could feel new life, energy and vitality flowing through my body. My kidneys became stronger and I could sleep through the entire night without waking or getting up once. The pains in my back are gone and I never have those headaches. Konjola regulated my liver and cleared up my complexion. Now I have a bright appearance in my eyes. This medicine has made it possible for me to gain in weight and have put on four pounds in a short time. I will always praise Konjola because it gave me new strength and glorious health. I think everyone who is run-down should give this medicine a trial because I know what it will do."

The Konjola Man is at the Love and McGowan drug store, 204 East Washington street, New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy. Free samples given.

Two Pedestrians Hit By Automobile

Stanley Borno, 16 Fern street, and Ernst Smolnick, 6 Spring street, complained to the police Sunday evening that they were walking north on Atlantic avenue, about 11:30 o'clock when they were hit and knocked from the road by an automobile bearing Ohio license 887-557, which was also going north on Atlantic avenue and at a considerable rate of speed. They sustained a number of bruises and cuts. The motorist kept on going.

Body odor inexcusable ... why risk it when it's now so easily prevented?

BODY ODOR is almost a sin—socially. It is never forgiven. But unpalatable as body odor is—no one is safe from it. We all perspire—it's natural, necessary. Even on cool days, our millions of pores continually give off invisible perspiration—often as much as a quart of odor-causing waste every 24 hours.

The victims don't know—Since our own sense of smell cannot detect a familiar odor, we never know when we offend—but others do.

So, to avoid any chance of embarrassment, millions now use this

delightful toilet soap—Lifebuoy. Just wash and bathe regularly with Lifebuoy—it purifies and deodorizes pores—prevents body odor.

Health, too, is better guarded by Lifebuoy's bland and abundant antiseptic lather—it removes germs. Complexions are kept glowingly fresh and clear.

Note its clean scent—You will learn to love Lifebuoy's pleasant clean scent, which tells you Lifebuoy purifies. It quickly evaporates after rinsing. Use Lifebuoy a week and you'll use it for life. Get some today.

Congress May Make Investigation Into Chain Store System

WASHINGTON, May 7.—Federal trade commission inquiry into all phases of chain store systems with a view to curbing monopolistic tendencies and preventing violations of the anti-trust law would be authorized under a resolution introduced by Senator Brookhart (R) of Iowa.

The measure would demand a report as to the extent to which the chain stores have grown, the limits of regulation of them by the federal trade act and suggestions as to remedial legislation if found to be necessary.

Three In District To Receive Pension

Two Widows And Dependent
Daughter Of Veteran Are
To Benefit

By GEORGE H. MANNING
(Washington Correspondent of
The News)

WASHINGTON, D. C., May 7.—Two widows and a dependent daughter of Civil War veterans residing in the Twenty-sixth Pennsylvania Congressional district will receive pensions as the result of a bill just passed by Congress.

Pensions at the rate of \$30 a month are provided for Mrs. Clara E. Campbell of Grove City and Mrs. Frances C. Douglas of Franklin.

Mrs. Campbell is the widow of John Campbell who served in Company C, 155th Regiment Pennsylvania Infantry. They were married on October 12, 1905 and the soldier died on November 16, 1919.

Mrs. Douglas is the widow of Thomas W. Douglas, Company "C," 100th Regiment, Pennsylvania Infantry. They were married on June 19, 1909 and the soldier died on November 6, 1926.

Both widows are unable to support themselves because of their physical condition and have no means of support. They were not eligible for pensions under the general law since they were married after June 27, 1905 and only widows who were the wives of veterans prior to that date are automatically given pensionable status. Both are 71 years old.

Pearl E. Hennon, Wampum, is the dependent daughter of William C. Hennon, Company "I," 67th Regiment, Pennsylvania Infantry. Her mother, Mrs. Catherine A. Hennon, receives a pension at the rate of \$30 a month and the bill provides an additional pension at the rate of \$20 a month for the daughter. The latter has been an invalid since birth and the mother is also in need of constant attention.

In the bill just passed pensions or pension increases are provided for 1,313 veterans, their widows or dependents. It is estimated that it will cost the government \$420,581 for the first year.

PETER'S ADVENTURES

ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

THE FISH WHO WOULDN'T BE FOOLED

What could be going on in the honeysuckle clump? "Whirr-r-r-Buzz!" There wasn't a thing to be seen. The honeysuckles swayed in the breeze and nodded happily at each other, because the day was so beautiful.

Peter had been glad when he woke up that morning—and remembered that it was Saturday!

Who wanted to go to school when the birds and the bees and the butterflies were begging one to come out and play with them!

Besides, down in the brook were some fat fish that were just waiting to be caught. That is, Peter had thought they were, before he had tried. He had taken his fishpole, had baited his line with the most delicious worm he could find, picked out the choicest spot in the pool where the sun shined down on the water, showed the young minnows playing a game of tag.

Peter wondered if the minnows, too, were having a holiday for, of course, they had lessons. Hadn't he often seen whole schools of fishes floating by? In the sunshine on the rock Peter sat, and sat, and sat! Not a fish came to nibble at the tempting morsel that dangled so invitingly above him.

Perhaps the water was so clear that the little minnows caught sight of the boy on the bank, out of the back of their eyes as they swam about. Perhaps they snickered at him sitting there, like a bump on a log, thinking they were going to be taken in by a trick like that. Not they! Perhaps, in minnow language, they told each other: "They knew when they were well off and were not going to snap at a worm, no matter how temptingly it wriggled through the water. Why should they risk their lives over a worm which they could plainly see was fastened to the end of a string? Perhaps they neither saw nor said anything of the kind, but were just not hungry. At that rate, not once did the boy feel a jerk on his line.

The sun was so bright and the air

THE FISH WERE NOT GOING TO BITE AT A WORM THAT THEY COULD SEE WAS FASTENED TO THE END OF A STRING.

OTHER TRAFFIC MISHAPS HERE

In the numerous automobile accidents reported to the police over the week end, there were two children injured, one rather seriously, when struck by automobiles in the vicinity of their home, or where they were riding.

John Kulha, aged 10, son of Mr. and Mrs. George Kulha, 1102 Summit street, was very severely injured Saturday evening shortly before 8 o'clock, in the vicinity of his home, when struck by the car of George Mechin of 123 West North street.

Immediately following the accident, the boy was removed to the New Castle hospital by Mr. Mechin, where it was found that he had a possible fracture of the skull, a fracture of the right leg, and a number of other injuries of a minor character. An X-ray picture of his head will be taken, and it is hoped that today, that there will be information available as to the exact nature of his injury.

Mechin was driving at Summit

street on East Lutton street and the boy ran out into the street, crossing from the south side to the north side of Lutton street. The injured boy was picked up by Earl Johnson and then sent to the hospital, there being indications of the serious nature of his injuries.

On Arlington Avenue.
Little Joe Demafonte, aged 5, of Brent, Pa., is recovering at the New Castle hospital, from the effects of injuries sustained when struck on Arlington avenue by the car of Carl B. Hanna of 329 Park avenue Saturday afternoon about 3:20 o'clock. The accident occurred on Arlington avenue at Finch street and but a short distance from the home of Mr. and Mrs. Rocco Dell, 318 Arlington avenue, where the Demafonte family were visiting at the time. His injuries consist of a bump on the head and other injuries of a minor character, which will necessitate his remaining in the hospital for a few days.

Mr. Hanna, who was accompanied by Andrew Perry, was going about fifteen miles an hour in an eastward direction on Arlington avenue, when the boy ran out from in front of another machine, directly in front of the Hanna machine and in such a way that Mr. Hanna had no opportunity of stopping before he struck the little child. Mr. Perry picked up the boy, whose father declined to permit him to be taken to the hospital by Hanna, taking the boy there himself. On examination there by a physician, it was found that the boy had sustained a bump on the head and other injuries of a minor character. He will be able to leave the hospital in a day or two. When picked up, he was bleeding profusely at the mouth ears and

nose and it was at first thought that he might be very seriously injured.

Other Mishaps

The car of John K. Ficht of 324 Cascade street, was making a left hand turn onto Butler avenue from the driveway to the office of the Lehigh Portland Cement company when a car bearing Pennsylvania license 458-284, going west on Butler avenue, ran into and damaged the Ficht car, according to the report made to the police Sunday.

Louis Reebel of 1806 Highland avenue, on Saturday, according to the report made to the police, was driving west on East Washington street near the office of Alderman O. H. P. Green, when a car of the Bell Telephone company, going in the same direction, ran into and damaged the Reebel machine.

Patsy Pascarella of Hillsville, on Saturday reported to the police that he was driving on a learner's permit and going east on Neshannock avenue, about fifty feet from East street, when a car stepped from the curb and in avoiding hitting him, Pascarella drove his machine into the machines of C. C. Righy and W. J. Isaac, which were parked at that point. The two machines hit were damaged to a considerable extent.

B. J. Hickey of English avenue, reported that he was enroute east on Washington street at Beaver street Saturday, when a truck bearing Pennsylvania license R 34-598 going north on Beaver street, ran into and damaged his car.

New Traffic Lights Must Be Observed

Police Report Autoists Are Violating Warnings Of
New Lights

New traffic lights placed at Madison avenue and North Liberty street and East and North streets, according to the police department, are not receiving the proper attention from many motorists, whose excuse when ordered in is that they did not know they were there.

These new lights have been placed at points of heavy traffic and the police announce that the motorists must pay strict attention to them or suffer the consequences, as they were not placed at these points for fun. The blinker lights warning motorists of the presence of a school zone are now being tried out at the Highland avenue school. They are proving of value and it is probable that they will be established by the city at every school zone of the city for the protection of the school children.

Street Cars Resume To Seventh Ward

Bus Line Is Discontinued; Hearing On Grant Street Project

Bus transportation was abandoned via Atlantic avenue to the Y. M. C. A. station, Seventh ward, and street car service resumed Sunday according to Superintendent C. C. Coulthard, P. O. railway.

He said that the service was fine and that there was no interruption of service during the day and that patrons had experienced any difficulty with the cars.

A hearing on the company's request to operate auto busses via Grant to Sampson street is being heard by the Public Service Commission at Harrisburg today.

The company had been asked by citizens to institute the service and if the permit is granted street car service will be abandoned in Grant street, and be replaced by the bus line.

Brick Work Near To Completion On Jameson Hospital

Exceptional Progress Is Being
Made On New Hospital
At Present

Progress that can only be considered as most unusual has been made on the new Jameson Memorial hospital during the past week because of the warm weather and the building will be completed in contract time, is the statement made this morning by W. H. Walker of the Boldt Construction company, who is supervising the construction of the building.

"Within the past week great progress has been made at the hospital," states Mr. Walker. "The brickwork on the main building is practically completed. All that remains to be done is to wash down the brickwork, which will be accomplished later in the summer. Today bricklayers are laying the walls of the solarium and the pent house. The brickwork on the nurses' home will begin within a few days.

During last week, contracts have been let for roofing, incinerators and elevators. Work is also being pushed on the interior partitions of the building.

SENIOR HIGH BAND GOING TO CAPITAL FOR STATE HONORS

(Continued From Page One)

It means that New Castle will compete with the best high school bands of the state, and from the work of the local band, it is the first and its present high standard of efficiency. New Castle should stand a good chance of coming home with the state championship.

Expenses Not Heavy

While the band will take down some 80 boys, the expenses will not be as heavy as would first appear. Senator George T. Weingartner has accepted the chairmanship of the "On To Harrisburg" trip and with Principal Frank L. Orth of the high school has outlined a plan of action which calls for automobiles to take the boys down to the Capitol City. The expenses of gasoline and oil will be paid for out of the fund which it is hoped to raise.

Senator Weingartner stated today that the following car owners had promised to take their car to Harrisburg and would care for the number of boys as shown opposite the names. They follow:

George T. Weingartner 6
L. O. Mantz 4
Ben Cunningham 4
Fred E. Bala 4
William G. Fleming 4
Evea Coulter 4
Dr. W. L. Beal 4
Harvey Stiller 4
George Smith, all the band instruments.

A meeting has been called for this evening in the office of Senator Weingartner in the Lawrence Savings and Trust Building at 7 o'clock to make plans to get more cars and to raise the money necessary to finance the other features of the trip. If enough cars are secured to haul the boys, then it will be necessary to raise about \$800.00 for meals, hotel expense and the like.

How Much For You?

Ahead of the boys themselves have pledged \$200.00, and it is expected that the half of the proceeds of the play will net about \$150.00 more. This leaves \$450.00 to be raised by public subscription and these subscriptions can be made out to Frank L. Orth, principal of the Senior high school and can be sent to him or to Senator Weingartner.

The need for contributions is immediate. No contribution is too small or too large to be accepted and every little bit will help to raise the total necessary. It is New Castle's opportunity to win a state championship of Senior high school bands and winning the championship of Northwestern Pennsylvania it would seem too bad not to give the boys the opportunity to compete for the big honor.

The Senior high school band has rendered invaluable service to the citizens of New Castle. Time and again they have turned out for parades and for gatherings and not a cent of expense has been charged. At every football game they are a part of the game's excitement and color and New Castle has always been proud of the band. In 1923 they were sent to Chicago for the national competition but none of the present band were in that organization. Neither were any of the present band boys in the organization that went to Harrisburg for the now famous football game with Harrisburg Tech. This trip, to be made Friday will be the high spot of the band's career.

Leave Friday.
The plan is to send the cars out of here on Friday, so that the boys can be put to bed in good time Friday night. The competition opens Saturday morning, but La Verne Irvine, director is not certain yet what time the New Castle band will play. Following the competition it is the plan to stage a parade in Harrisburg and perhaps play on the Capitol Plaza. On Sunday morning the trip home will be started.

Now is the time to get your contribution of money or a car in for this trip. If you cannot send your car, you can help with your money. The meeting tonight in Senator Weingartner's office is open to all friends of the band. Everyone interested is urged to attend and assist in putting this project over with the usual pep. And in the meantime, dig out the old checkbook and make one out payable to Frank L. Orth, principal. Send it to him or to Senator Weingartner.

ACCEPTS POSITION IN SHERIFF'S OFFICE

Miss Alice Diffley of the seventh ward stenographer in the office of District Attorney J. Elder Bryan, has resigned to accept a position as stenographer and clerk in the office of Sheriff H. M. Reynolds. Miss Diffley, who is a very competent young woman, assumed her new duties this morning.

CARS IN CRASH AT NORTH STREET CORNER SUNDAY

Volant Man Is Held By Police
Pending Investigation Of
Facts In Case

Joseph C. Campbell of the Campbell-Pazzano Taxicab Company, reported about 9:20 a. m. Sunday that his car had been wrecked at Mill and North streets by another car.

Officers Criswell, Dukes and Hanna answered the call and found that Joseph Hedglin of Volant No. 2, was the driver of the car that had wrecked the taxicab. He had disappeared when the officers arrived, but Anthony Barcheck of Volant and two local girls, who had been in the car were still there. There condition was such as to indicate that they had been drinking and they were taken to the police station. They were discharged by the mayor Sunday morning.

Hedglin appeared this morning and stated that he had been to a dance and that he was sober. After the accident, he wandered about the city on foot, and his car had been taken away and went home later in the morning.

According to Campbell he was driving north on North Mill street and his machine was almost past the north line of the North street intersection, when the Hedglin car crashed into his machine, knocking it against the curb. The right rear wheel was broken off and the car turned over two or three times, landing almost in the Hamilton apartment entrance. Campbell was thrown through the roof of his car and had his hand so badly cut that it had to be dressed by a physician.

The Hedglin car was going east on North street and was apparently making a left hand turn to go north on Mill street, when the accident occurred. Hedglin is being held by the police pending a further investigation of the case.

Bishop Answers

Bishop Anton Bast, of Copenhagen, Denmark, has come to the quadriennial general conference of the Methodist Episcopal church in Kansas City, Mo., to face an ecclesiastical court of 17 of his fellows of the cloth, to answer charges of conduct-unbecoming a minister. He was given a three-month jail sentence in Copenhagen on a civil charge involving alleged misuse of charity funds.

Reports He Was Bitten By Dog

Charles E. Hege of 511 Whippo St., complained to the police Sunday that while walking in front of 127 Bridge street that a dog belonging to Tinsley Jordan was running at large and attacked and bit him on the left leg. The wound was of such a nature that the services of a physician were required. An officer notified the owner to keep the dog tied up for ten days.

May Raise Rates For Conduit Rent

Reeves Believes City Should Receive More Revenue From Conduit

Councilman Clayton Reeves today fathered a movement which will result in the city staging an effort to secure more revenue for the city for conduit space rental.

He said during council session at city hall that the city is realizing only 2 1/2 per cent on its investment and he believes the Bell and Postal companies should pay more than 5 cents a lineal foot.

Sometime ago an ordinance was introduced and which now reposes in the committee which would have sold the conduit to the Bell Telephone Company for \$65,000.

Solons did not desire to sell the system without expression from the public and owing to illness of Councilman Walter Tyler the solons have not reported the bill from committee.

Today's move by Reeves was a new one and according to Solicitor White the contract between the city and Bell company can be set aside should the public service commission see the city's side of the case.

The Bell company entered the conduit system about 14 years ago. While the city has not raised rates the company has according to council and the city believes it is entitled to more revenue.

According to the contract the Bell company cannot build a conduit system parallel to the city's system but they have from time to time repaired the city's conduit to suit their needs.

New Secretary Arrives In City

James W. Cole Of Huntingdon, Ind., Assumes His New Duties Here Today

James W. Cole, secretary of the New Castle Chamber of Commerce, arrived in the city this morning, and assumed his duties. Mr. Cole comes to New Castle from Huntingdon, Indiana, where he has been secretary of the Huntingdon Chamber of Commerce for the past few years.

Mr. Cole succeeds Alfred W. Chilton, who, April 1, resigned from the secretaryship of the local chamber to accept a position with a Cleveland firm. During the hiatus between Mr. Chilton's resignation and the arrival of Mr. Cole, Herbert Pears, manager of the Scottish Rite cathedral, has been acting as secretary with the help of Miss Mary Frances Ray, assistant to the secretary.

Bill Jones started home in his Lizzie. Liqueured an' feelin' quite dizzy. On th' highway, somehow, he met up with a cow. An' his friends are askin' "how-iz-ze!"

THEFT ATTEMPTED. It was reported to the police Sunday evening that the Ebeling Radio Shop on South Mercer street had been entered and that a complete radio and parts had been found in a barrel just outside the place, evidently being placed there so it could be taken away later.

Boxing Kangaroo Comes With Circus On May 16

Maybe Gene Tunney, foremost heavyweight fighter might learn a few tricks from "Bob" the champion boxing kangaroo of the Hagenbeck-Wallace Circus which comes for afternoon and night performances May 16th.

"Bob" has been taught all the fine points of the boxing game by "Kinko," one of the Hagenbeck-Wallace

funny-fellows and is very adept with the gloves as well as his feet. These pair engage in a four round encounter during the show and usually have the audience cheering wildly. "Bob" is usually declared the victor.

Wrestling and fighting bears are also to be found with Hagenbeck-Wallace and plenty of action is promised in all animal numbers.

Postmaster Inspects Rural Mail Routes

All Rural Routes Will Be Inspected During Month Of May

James G. Leslie, assistant postmaster, accompanied the carrier on rural route 7, today to make the annual inspection of the mail route.

During the month the annual inspection of all the rural routes out of New Castle will be inspected by the postmaster Edwin W. Crawford or the assistant postmaster Leslie.

The inspection consists chiefly of a counting of the number of boxes and the number of families served on each route and see if it is necessary to have more boxes. Two or more families may use the same box provided permission is secured from the postmaster and the owner of the box. The postmaster also checks up on the number of miles that each carrier travels in a day over his route.

The condition of the boxes and the posts on which they are mounted is also a part of the inspection and all patrons are urged to have their boxes in first class condition that they may easily pass the inspection.

Blankets, Draperies, Curtains are Easily Washed in the NEW MAYTAG

For homes without electricity the Maytag is available with in-built gasoline motor.

A big help at Housecleaning Time

THE difficult work of washing the heavy winter bedding, blankets, comforters that must be perfectly clean before they are laid away becomes a pleasant, quick and easy task with the New Maytag.

The roomy, machinery-free, cast-aluminum tub is a special convenience when these hard-to-wash things need attention. Even rag rugs may be washed in the Maytag, and it is hand-careful with fine draperies and curtains.

Now is the time to try the New Maytag. Let it help you with housecleaning. See how quickly it washes—a big tubful in 2 to 7 minutes, an average washing in an hour, and it washes so thoroughly that no hand-rubbing is necessary, even on collars, cuffs, wristbands or grimy overalls.

The New Roller-Water Remover, with balloon-type rolls removes both soap and water evenly from all parts of the garment, automatically adjusts the tension and reverses the drainboard.

The many distinctive features of the Maytag washer that give it speed, convenience and thoroughness beyond compare, have won for it first place among the women of America—World Leadership.

Phone for a Maytag. Without cost or obligation, give it a thorough trial in your own home. If it doesn't sell itself, don't keep it.

Maytag dealers everywhere follow the standardized rule of sending a Maytag to a home to do a week's washing free, and without obligation of any kind. This is the way all Maytag Aluminum Washers are sold. The Maytag must sell itself solely upon its performance in the home. It must wash everything to your entire satisfaction. Must wash everything—quicker, easier and cleaner than other washers. Must wash everything—even collars, cuffs and wristbands, without hand-rubbing. Must prove to you, in your own home, that it is the most helpful home-laundrying unit you have ever seen or used.

Air Express Trip To Grove City

New Castle Firm Delivers Parcels By Plane To Mercer County

New history was made Saturday morning for this city when the airplane of the Kegarise Air Transport company carried the first air express from this city to another point in record time establishing the fact that this will be one of the means of transportation in the near future which can be taken care of from this city.

The plane with Pilot Sherman in charge and accompanied by R. A. Kegarise and A. H. Gonick manager of the Smith Dry Cleaning company made the trip carrying a number of deliveries of the Smith company to Grove City. The distance by air is 17 miles.

The trip was made in less than ten minutes, the landing being made on Pine Top farm about a mile from the business center of Grove City and in the presence of the burgess and other officials of Grove City as well as an enthusiastic crowd of people of that city.

Grove City is interested in establishing an airport and the trip resulted in the people there getting some first hand information concerning the best landing field, etc. The return trip was made in 14 minutes against the wind and also around a storm.

Mr. Gonick stated that the test trip made was successful and in his estimation air transport service is to be the successful mode of making deliveries in the near future. The

Lewis Opposes State Bond Issue

Out Strongly Against Proposed \$25,000,000 Issue For Forests

STATE TREASURER
STATES POSITION

(International News Service)
HARRISBURG, May 7.—State Treasurer Samuel S. Lewis today came out strongly in opposition to the proposed \$25,000,000 bond issue for reforestation, in an address before the Exchange Club of Harrisburg.

The state treasurer already has voiced his opposition to the proposed \$50,000,000 bond issue for road building and has indicated at various times an unfriendly attitude toward three other proposals listed for next November.

Terming the reforestation bond issue an "economic fallacy," Lewis asserted that there is not enough suitable ground in the state upon which \$25,000,000 could be expended. All the available land, he said, can be purchased within the next nine years by annual appropriations less than the interest on the entire issue.

Lewis presented a table showing a total of 13,000,000 acres of forest land in the state, and the way in which it is divided. He estimated that almost one-third of that total is in farm wood lots, which are not suitable for forestry purposes under state management.

"With the state Game Commission buying land for game purposes, and with the holdings and contemplated purchases of many private hunting, fishing and recreation clubs now active and in the course of organization, it does not seem probable that more than 1,500,000 acres will be available for public purchase," Lewis contended.

Although the present average price being laid for forest land is little in excess of \$3.00 per acre, Lewis allowed a possible maximum of \$6.00 for future purchases. On the basis of available acreage at the \$6.00 price, Lewis pointed out that \$9,000,000 will buy all the land which is or will come on the market.

Forecasting a minimum interest of four per cent, Lewis said that it will be necessary for the General Assembly to appropriate \$1,000,000 annually from the general fund for interest charges alone, "to say nothing of the amount necessary for refunding the principal of the debt."

Although an annual appropriation of \$1,000,000 under the Lewis plan would buy all available land in the next nine years, he suggested a 13-year period instead. The last legislature appropriated \$500,000 for forest land purchases during the present biennium. Lewis proposed an annual expenditure of \$500,000 by the Department of Forests and Waters.

The Game Commission estimates that it will have available under the present increased fee system at least \$200,000 annually for land purchase. The two state agencies, working together, can in 13 years secure all available land, he asserted.

At the beginning of his speech Lewis emphasized his support of the reforestation program, but maintained that the bond issue would "lead to extravagance and waste."

At the same time he stressed the fact that the appropriation of \$500,000 by the 1927 legislature was the first for reforestation since 1919.

"This discontinuance of appropriations for forest lands purchases, according to forest authorities most familiar with the situation in Pennsylvania, was the most serious setback in Pennsylvania's forestry since its beginning," the state treasurer said.

One reason why the reformer can't make the world right is because it feels just as complacently righteous as he does.

Organ Dedication Program Occurs Sunday Evening

ADULT AND CHILDREN'S CHOIR OF ST. PHILIP AND JAMES CHURCH

With the church auditorium crowded to the very doors, the new organ of St. Philip and James church at the corner of Hanna and Charles streets was formally dedicated to the worship of God on Sunday evening, May 6, when a dedicatory service was combined with the Feast of the Patron Saints of the church.

It was a service to be remembered. Dignified and impressive, it marked officially the induction of the splendid organ into divine service and for that induction, or dedication, Rev. V. V. Stancielewski had invited a number of visiting priests to participate in the ceremonies.

Blessed by Rev. M. Kozlowski, the blessing of the new organ was performed by Rev. Michael Kozlowski of Mt. Pleasant, Pa., who also preached the dedicatory sermon. The regular services were conducted with Rev. M. Drejak as celebrant, Rev. C. Zieliński as deacon and Rev. S. Kupiec as sub-deacon.

In addition to the sermons of the service, there was a dedicatory recital presented by the organist and choir director of the church, Miss M. Dutkiewicz. The burden of preparing for all of the musical events of the day fell upon the shoulders of this talented young woman and the manner in

which she did it is a credit to her and to the church she serves.

Her own work at the console of the organ was a delight. Her program as such that every feature of the organ combinations was brought out and the natural artistry which is hers found ample outlet in the numbers she had selected.

She also directed the work of the children's choir and the adult choir which sang a picture of both choirs being a part of this article. The music presented breathed the spirit of the Catholic church and was a small part of the dignity of the day's exercises.

To Rev. V. V. Stancielewski, the day must have been a source of deep satisfaction. For several years he has worked untiringly to put St. Philip and James church on the high plane which it now enjoys.

No task has been too small or too large to attract his undivided attention and today the church stands as a monument to the faith of its communicants and the priest who directs its activities. Church services, musical activities, school work and social and athletic events have all been supervised by Rev. Stancielewski and today the church calendar is filled with the various activities.

The program of the music followed on Sunday follows, as does the names of the members of the two choirs.

Prelude, Batterman—Miss Dutkiewicz.

"O Salutaris Hostia," Bruno Klein—A reverend number sung by entire chorus.

Solemn Vespers, Vatican Version—Children's choir alternating with adults.

Trío, "Gloria Patria"—Mary Melcer, Mary Dudek, Joseph Garcewski.

"Ave Maria, Stella," Giuck—Adult and children's chorus.

Regina Coeli, Jacques Batmann—A joyful hymn of Paschal time. The theme is carried by the tenors and boy sopranos and altos.

Veni Sancte Spiritus, Hanna—Solo parts by Mary Melcer and Joseph Garcewski.

Tantum Ergo, Franz Schubert—An inspiring composition of a great composer. The adult choir.

Following the dedicatory services, the following group of organ solos were given by Miss M. Dutkiewicz: Jubilate Deo, Silver.

Prelude and Fugue in C major—J. S. Bach.

Mazur—Namyslowski, A Polish folk dance.

Selection of Polish songs and dances. Both the above numbers arranged for the organ by Miss M. Dutkiewicz.

Polish national hymn—Congregation.

American national anthem—By the congregation.

Gillfillan Tells Of Visit To Egypt

Makes Address At Meeting Of First U. P. Congregation Sunday Morning

"Egypt and the American Mission" was the subject of the interesting address which J. Clyde Gillfillan delivered Sunday at the morning service of the First United Presbyterian church held in the auditorium of the Y. W. C. A.

Mr. Gillfillan, who just recently returned from abroad, talked of the United Presbyterian mission schools and the missionaries who represent that denomination in Egypt. He gave a detailed account of his experiences in the city of Cairo and told of the languages, customs and habits of the natives of that place.

In his address, Mr. Gillfillan cited the fact that Egypt, or Cairo especially is not such a warm place as one would expect to find. The hotels in the city are not heated well and as a means of keeping warm they were compelled to run hot water in the

bath tub so that the warmth might seep about the room.

Mr. Gillfillan also mentioned the trip which his party took to the tomb of King Tut and other places of unusual interest that they visited.

Mr. Gillfillan's address was heartily enjoyed by the congregation, and the members now look forward to his talk concerning his trip about the Holy Land which he expects to give in the near future.

At the evening service of the congregation the pastor Dr. S. E. Irvine gave a historical address on the subject, "The United Presbyterian Church" as yesterday was observed as the 70th anniversary of the organization of this denomination.

AGAINST PARDONS.
22 Maitland St.
New Castle Pa.
May 5, 1928.

New Castle News.
Dear Editor:

I read in the Saturday's edition of the News about a notorious bandit being pardoned from a 15 year sentence. Then I noticed in the Pa News

Observes Column where the editor gives reference to somebody called "they" for wondering why the crime wave is not abating.

The crime wave would abate if our legislative members would only attempt to have laws passed forbidding pardons to any class of criminals.

The criminal has his plans made before he commits a crime either to rob or kill. He knows the law, knows that he can be pardoned, he declared insane later, be freed, proven sane after serving several weeks or months in an asylum. If the LAW would keep the criminal behind the steel bars or prison walls until he or she had served every day, hour minute of their sentence the criminal would THINK twice before doing the crime.

The courts with its jury help to use the taxpayer's money to convict a criminal, then the pardon board takes up the case, shows mercy and the criminal that was convicted at the courts that are supported by the taxpayers of this commonwealth is given a pardon.

Yours for LAW and ORDER.
SEBASTIAN C. ISABELLA.

Blame For S-4 Crash Appears Divided, Is Found By Reports

Navy Blames Coast Guards And Coast Guards Lay Blame On Naval Shoulders

(International News Service)
WASHINGTON, May 7.—The navy blames the coast guard and the coast guard blames the navy.

Upon this basis today rested the responsibility for the tragic sinking of the U. S. submarine S-4 with her entire crew of officers and men. The S-4 was struck by the coast guard destroyer Paulding.

The navy got its report in first, a navy board finding the Paulding was at fault. Lt. Com. J. S. Boyus was criticised for failing to sight the S-4.

Now a coast guard investigation board has concluded a lengthy investigation, and reports that the officers of the S-4 were at fault.

The coast guard finding points out that the S-4 carried no warning flag, and that the navy had neglected to inform coast guard destroyers of submarine operations off Provincetown, where the collision occurred. Baylis

and his officers were absolved of any responsibility for the crash, and Secretary of the Treasury Mellon approved the finding.

Police Arrest Four For Having Liquor

One Is Held For Hearing Before Alderman As Result Of Arrests

Complaint was made to the police Sunday that there were four men apparently in a drunken condition in the St. Cloud building near the elevator.

Officers Longstreth and Nelson were detailed and found the four men. One of them Carl Lentz of the St. Cloud building, had some liquor on his person.

All four were arrested and taken to the city jail. Lentz was held for the mayor while the other three men posted forfeits of \$10 each for which they did not return.

Later the same day Lieutenant Hillers and Officer Longstreth visited Lentz's room No. 316 St. Cloud building and found half a gallon of liquor.

He was today charged with violation of the Snyder Act before Alderman Walter T. Hamilton by Chief of Police C. C. Horner.

Women Injured In Auto Accident On Youngstown Road

APPLICATION ARGUED FOR A NEW TRIAL

Application for a new trial was argued before Judges Hildebrand and Chambers this morning in the case of Peter J. Iodice against the Vitale Fireworks company. This was a case in which Iodice was injured in an explosion of fireworks during an exhibition which was being given in Youngstown. The jury awarded six and one-half cents damages. The plaintiff believes that he is entitled to more.

Appeal To League To Intervene In Chinese Warfare
Five Hundred Prominent Chinese Citizens Ask League Of Nations For Help

(International News Service) MANILA, P. I., May 7.—The League of Nations has been called to intercede in the present warfare raging about Tsinanfu-China. A cablegram was dispatched here today to the league's headquarters at Geneva asking for intervention on behalf of Chinese Nationalists to protect them against "Japanese brutality."

The cable was sent by leaders of a mass meeting of 500 prominent Chinese residents of the Philippine Islands called in Manila today. The plea to the League of Nations was made following a resolution authorizing it.

Resolutions were also passed by the mass meeting authorizing the transmission of protests to Premier Tanaka of Japan and to the Japanese people through the medium of the press.

Order Additional Japanese Troops To Tsinan Sector

(International News Service) TOKIO, May 7.—The war office ordered 2,700 Japanese troop reinforcements to Tsinan (Tsinanfu) today in preparation for an "offensive" to occupy the Shantung railway so that badly needed provisions can be sent to the 3,000 Japanese troops in that battered wrecked city. The Japanese may take over control of the city.

SEVENTH WARD NEWS

Mrs. Paul Thomas Given Surprise Party Saturday

About Forty Guests Are Present; Other News Notes Of The Seventh Ward

Honoring Mrs. Paul E. Thomas, a bride of recent date, a number of friends gathered in surprise fashion in her honor at the home of her father, S. A. Barnes on N. Cedar street Saturday evening. Mrs. Thomas will be remembered as Miss Sylvia Barnes before her marriage to Paul E. Thomas on March 10 at Singapore.

Thirty-nine guests were present. Mrs. Thomas was given a miscellaneous shower of gifts. The evening was spent in games and social chat. At a seasonable hour delicious refreshments were served. The luncheon table was centered with a bouquet of sweet peas and appointments were carried out in a color scheme of pink and white.

Committee in charge of the arrangements for the party event was comprised of Mrs. Arthur Slump, Mrs. Omar Mauck, Mrs. Maurice Boyd, Mrs. H. W. Booher, Mrs. David Daniels, Miss Margaret Walker and Mrs. J. M. Conn.

Mrs. and Mr. Thomas arrived here on Thursday, having come from Singapore, where they have been in mission work. Mrs. Thomas has been in charge of the public school music at Singapore for the past two and a half years, while Mr. Thomas has been associated with the printing department of the Methodist Publishing house the past three and one-half years at Singapore.

Mr. and Mrs. Thomas plan to leave on Thursday of this week for Washington, D. C., where they will visit with the former's parents, Mr. and Mrs. P. M. Thomas.

QUEEN ESTHERS

The meeting of the Junior Queen Esther of the Mahoning M. E. church postponed from last Friday evening will be Tuesday evening in the church.

GIRL SCOUTS

The Eagle Troop Girl Scouts will have their regular meeting Tuesday evening in the Mahoning school.

LARKSPUR KENSINGTON

The Larkspur Kensington will be entertained at a 12 o'clock dinner at the home of Mrs. Wallace Park of Sycamore street, Thursday.

G. I. A. LODGE

The Grand International Auxiliary to Brotherhood of Locomotive Engineers will have their lodge meeting Thursday afternoon in the City Hall building.

MABEL WILSON LODGE

Mabel Wilson Lodge Number 567 to Brotherhood of Railroad Trainmen will have their lodge meeting Thursday evening in the Daughters of America hall.

DINNER CLUB

The meeting of the Thursday Dinner club with Mrs. George Hurt at Sharon, Pa., for Thursday this week has been postponed indefinitely.

NEW SCENERY TODAY

People from the seventh ward have a change in scenery by traveling by

the street cars, but all would prefer the bus route if they had any choice between the two. We find it takes at least twice as long to make the trip.

Mornings are, of course, very busy times. With many passengers and many stops. The trip was made in 22 minutes. Buses would have carried the people to the center of the city in half that time. At times in the day when there are not so many passengers the trip will not probably take quite so long.

PRESBYTERIAN CHURCH

This evening there will be a meeting of the session in the pastor's study.

Wednesday evening the mid-week prayer service.

Thursday evening the S. C. W. Bible class, taught by Mrs. L. A. More, will have their class meeting at the home of Mrs. E. W. Smith of West Clayton street.

CHRISTIAN CHURCH

This evening at eight o'clock practice for the play, "Clubbing a Husband."

Tuesday evening the Loyal Workers' class will have their social meeting at the home of Miss Susie Park of East Cherry street.

Wednesday evening the prayer service at 7:45.

Friday afternoon the monthly meeting of the Ladies' Missionary Society of the church will be held at the home of Mrs. J. T. Clark of King avenue. Miss Ivan Walters will be leader. The meeting is at 2:30.

Friday evening there will be another practice for the play.

The Ladies' Aid Society will meet Wednesday afternoon at 2:30 with Mrs. Addie Robinson of Sunny Side.

M. E. G. AUXILIARY

The M. E. G. Auxiliary of the Mahoning Presbyterian church will have their monthly meeting Tuesday evening with Mrs. Raymond Horchler of West Clayton street. Devotionals will be in charge of Mrs. C. A. Patterson. The missionary topics, "Latin America" will be in charge of Mrs. George Horchler. "Spanish Speaking People" will be discussed by Mrs. Harold Unnagst.

METHODIST CHURCH

This evening at eight o'clock a meeting of the official board in the church parlor, followed by a trustee meeting.

In the church basement at eight o'clock this evening a meeting of the athletic association.

Tuesday evening at six o'clock men of the church are requested to come and help fix up the church lawn.

Wednesday evening the mid-week prayer service at 7:45. Mrs. J. A. Waddell's class will answer to roll call.

The Lookout class, taught by Mrs. J. A. Waddell, will have their class meeting Thursday evening in the church parlor.

The Women's Foreign Missionary Society will have their monthly meeting Friday afternoon from two until five.

Rev. Maxwell To Speak At Kiwanis Meeting Wednesday

Wednesday's program in the Kiwanis Club will be in charge of the Educational Committee, with Everett Bartlett, chairman in charge. The speaker of the day will be Rev. Samuel L. Maxwell, a member of the club. The program to be announced later.

The meeting of the week of May 28 will be on that day instead of May 30, which is Memorial Day. On June 18, the Kiwanis Club will join with the Beaver Falls Club in the observance of All Kwanian Night. The local club members will go to Beaver Falls where they will join with other clubs of the Beaver and Sherango Valleys.

HOUSEHOLD HINTS

BY MRS. MARY MORTON

MENU HINT

Here is a new-to-me—dish for breakfast or luncheon—potato pancakes with bacon. The habit of going without breakfast or with a very light one is quite prevalent, but we "have always with us" those who need food as soon as they are up in the morning, and who would, if possible, prefer a hearty meal served them in bed.

Grate Fruit or Oranges Cut in slices
Potato Pancakes with Bacon
Coffee.

Today's Recipes

Potato Pancakes with Bacon—One cup sifted flour, three medium sized raw potatoes, one egg, one-half teaspoon salt, one-half cup milk, one-quarter pound chopped or finely cut bacon. Grate the potatoes and mix with flour, egg, salt and milk. Beat mixture well. Pour enough batter for one pancake into hot frying pan and sprinkle with chopped bacon. Turn pancake over with pancake turner and the bacon will fry a trifle. Turn pancake over again and let it fry to a golden brown. This recipe makes about eighteen regular sized pancakes.

Orange Slices—An easy way to eat oranges, if you do not care for the spoon or juice method, is to cut them in slices, pick them up in the

SUGGESTIONS

Using Up The Beans
Bean Patties—Add a beaten egg to left-over baked beans, and enough flour to serve as a binder. Add a little onion for flavor. Shape the beans into patties and dip into cast-iron. Roll in cracker crumbs and fry with bacon. Served with crisp waters.

Cress salad, for instance, with hot rolls and fresh apple pie for dessert, this dish is delicious.

Company Meal Schedule

Do you keep a record of the meals you serve when you have guests? The housewife who wrote the following does, and finds it helpful.

Always when I am expecting company for dinner I plan my menu and write it down in a book which I have for that purpose. This not only enables me to know just what to purchase, but also to prepare as much as possible beforehand.

"After the meal, if it has seemed as particularly good a combination, I check that menu and at some later date, instead of planning a new one, I use some of the favorite ones checked in my books."

Fingers, break apart and eat the little sections one at a time.

The youth was injured at his home. According to reports young Stanley is recovering rapidly from his injury and has been removed from the New Castle hospital to his home.

Japanese Troops In Battle With Chinese Looters

Anti-Japanese Demonstrations
Occur At Nanking Today
Is Reported

LONDON, May 7.—Sporadic fighting occurred in Tsinan today between Japanese troops and Chinese looters, according to an Exchange Telegram company dispatch from Hong Kong. The Japanese clashed with the Chinese while making a house-to-house clearance of the looters, the dispatch stated.

Anti-Japanese demonstrations occurred today at Nanking, the dispatch added. As a result Japanese residents are evacuating the city and fleeing by way of the Yangtze river.

Dispatches from Tokyo published in the Daily Express today stated that as a result of the Tsinan outrages and the critical state of affairs in the Shantung province, a special meeting of the Japanese cabinet and war office was held at which was decided to dispatch 5,000 additional troops to China.

Preparations for their departure are already under way. When these additional troops arrive, the number of Japanese troops in China will total 10,000.

MERCER, Pa., May 7.—The return board engaged in the computation of the vote cast at the recent primaries completed its task Friday morning and filed its report with the county commissioners shortly before noon.

The report does not change any of the results announced in the unofficial count and but slight changes in the figures announced.

The Democrats have a complete ticket in the field. No Labor votes were cast and the Prohibitionists scattered their vote over a wide range of candidates.

Roaming Round With Richards

Some News, Some Views. But Mostly Just Observations Of Interesting Things Around New Castle

Some years ago some mathematically inclined genius figured out that the point of saturation in automobiles would be reached very soon and after that the manufacturers would just have to sit back and make replacement cars.

Apparently that mythical point of saturation has never been reached for the country roads seem to show an increase in cars every year. Yesterday was a day built for automobiles and like everybody else no doubt you took advantage of it.

From early morning until late at night the main roads leading in and out of the city were crowded and almost miraculously the accidents were few. Perhaps the American automobile driver is getting more careful, for the wonder is not that there are accidents, but that there are not more.

New Castle's representative in the Metropolitan Opera is a visitor here today. Madame Charlotte Griffith Ryan. When you went to high school you knew her as Charlotte Griffith probably, but times and names change and for the past several years the young lady has been one of the soloists of this world's best musical organization.

The Met played Cleveland last week and Madame Charlotte was listed on the billboards along with Talley Martinelli and the rest of that famous galaxy. Her solo role last week was The Deewman in Umpierdick's "Hansel and Gretel."

Back of the footlights the young lady carries her full name, but here in New Castle where she was raised she is still Charlotte. Somehow when she comes back home she leaves her formality in the baggage room of the railroad station and as far as it is possible to see, there is no difference between this now famous opera soloist and the little girl who used to sing roles in high school theatricals not so many years ago.

Howard Kelly is wondering what sort of onion sets he bought. Some days ago he took home a load of the succulent shafts, and on Friday evening planted them. On Sunday he had onions large enough to eat. Either the ground up on his place is out of the ordinary or else somebody pulled a fast one.

Some evening when you have time take a ride up around the new George Washington Junior high school on Euclid avenue. If you haven't seen it, you may be surprised at the rapidity with which it is going up, and the beauty of the new building.

The George Washington will probably be the last new school building for some time. For some years the school system was behind its increase in scholars, in the matter of building facilities. Starting some six or eight years ago the board began catching up on the parade and when the new school is dedicated, it will be about up and up.

When the new school is ready, the old Martin Gantz school, historic old pile of brick, will be abandoned and the present North street junior high school used by the Martin Gantz people. What to do with the present Martin Gantz site is something else again.

NEVER THOUGHT SHE WOULD GET SUCH BENEFITS

Stomach, Liver, Kidneys And Nerves Improved By Famous Ten Herbs

"I was favorably impressed with all the praise I heard for Ten Herbs but had no idea I would be benefited by your medicine the way I have been," was the statement of Mrs. Elizabeth Jones, 209 Climax street, Beltschover, Pa. (a section of Pittsburgh), to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington street, New Castle, where he is daily demonstrating this great natural medicine to crowds of people.

MRS. ELIZABETH JONES

"When I started to use Ten Herbs, I was in such a weakened, run-down condition that I could hardly keep going," Mrs. Jones continued. "I was on the verge of being a nervous wreck. My appetite was poor, and when I forced myself to eat, I would be distressed with gas and have a suffocated feeling. I had to live on the lightest kind of diet. I was so nervous that I would roll and toss before I could sleep. I was very easily excited and the least noise would irritate me. I was constipated, and my liver was sluggish. My kidneys seemed to be out of order, as everytime I scooped over pains would shoot thru my back, or become so weak and lifeless that I feared I would have to give up my position."

"Before I had finished the second bottle of Ten Herbs, I noticed a great change taking place. I found your medicine to be just what I needed. My digestion became good, and now I can eat anything without having misery afterwards. My liver and bowels have been regulated, and my kidneys are more active. My nerves have become quiet, and I do not have those shaky, nervous excitable spells any more. I sleep better, and feel a hundred per cent. better in every way. I do not hesitate to recommend Ten Herbs to anyone who is suffering as I used to."

Every claim made for this new herbarial medicine, Ten Herbs, is backed by a mass of evidence on file. Many men and women in this section vouch for the satisfactory results it gives in relieving disorders of the stomach, liver and bowels.

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington street, New Castle, where he is daily meeting the public and explaining the merits of this medicine. Free sample given.

The Diary of a New Yorker
A CLARK KINNAIRD

Exclusive Central Press Dispatch to New Castle News

NEW YORK, May 7.—Broadway is certainly no place to believe your eyes or ears. Motion picture companies hire crowds of extras to mill around the theater entrance the night a "super-special picture" opens, to give the impression of tremendous interest in the photoplay. And at least one company dresses some of the extras in clothes that may be torn easily, so that resultant rips and tears will arouse comment in passersby.

Motion picture companies have also adopted a device of opera companies and employed claqueurs to arouse the enthusiasm of opening night audiences. The handclapping is supposed to impress the critics, too!

There's nothing unusual about the revelation that waitresses at at least one Alice T. Cook MacDougall coffee shop are required to pay the proprietor \$10 a week to hold their jobs.

The difference between a New York teahouse and a restaurant is that in the teahouse a cup of tea costs 25 cents and is served by a waitress who expects a half-dollar tip.

Incidentally, the coffee is better in the one-armed lunch place frequented by taxi drivers and "sushi" than it is in the tony coffee saloons with Spanish names, where a cup of java costs 15 cents more, plus a tip. And in the latter place it takes half an hour longer to get it. The taxi men and other workers demand good coffee and patronize the places that have it.

One of the strangest occupations in New York is that of cat-meat supply man. The cat-meat man makes the rounds of residential districts, giving bits of liver, catnip, and other feline morsels to cats and tables of persons who pay him by the month for the service. The cats know the hours when the cat-meat men make their rounds, and are always awaiting them.

The height of something or other is achieved every time Elsie De Wolfe, the famous interior decorator, who is Lady Mendl, writes a check. One who professes to have witnessed the ceremony says that her checkbook is bound in rich leather, and is placed

FISHER BROS. PURCHASE ENTIRE STOCK 40 PER CENT UNDER MARKET

Pennsylvania and Ohio Chain Purchase The Floor Stock of Co., Consisting of 17,000 Shirts

One of the largest, if not the largest, single purchase and sale of men's shirts was consummated yesterday when Co. well-known Mail Order House, manufacturers, and chain-store operators in Pennsylvania and Ohio. This is unquestionably the outstanding deal of the season and probably will have a marked influence on the shirt market, an influence that will likely be felt the entire year. The purchase price was forty per cent of list. This is of great significance since every shirt involved was a staple and of the better grade. Fisher Bros. intend to dispose of this purchase through the retail market afforded by their chain of stores. Retailers, jobbers, and wholesalers all agree that this shall probably kill Pennsylvania and Ohio as summer shirt markets. Mr. Goodheart in an interview after the sale said that the Co. had decided to eliminate shirts only after an investigation that lasted almost two years. He attributes this inability to compete with the market to the very low operating cost of many chain stores. In the report submitted to the Co. by their investigators it was shown that the average department store's overhead was in accord with their own selling expense. However, each year department stores are selling less and less men's goods and the smaller chains who are absorbing this volume are being operated on a very much smaller overhead. This is the first line of merchandise ever to be eliminated by Co. Mr. Goodheart stated although this would mean a considerable loss in volume it was in accord with the policy decided upon by Co. last year. It will be remembered that on April 16, 1927, Co. decided that in the future they would carry only such items that could be sold at a profit and retailed at less than the usual local retail price.

Fisher Bros. Agree To Withhold Name and Confine Sale To Their Stores

by JOHN SREAVAT

NEW YORK, April 26, 1928.—It was announced by Mr. Goodheart, sales manager for Co., that the bill of sale of their name in the retail sale of this stock of shirts. Early in the bidding it became apparent that the market which would absorb this immense stock was of vital importance to many operators. It was the general opinion that the dumping of this stock in one lump would upset the retail market upon which it was placed for six months. For this reason many large department-store operators feared the necessity of a huge decline in the value of their stocks should these shirts of the Co. be purchased by any competitor. The purchase of Fisher Bros. chain-store operators, manufacturers and wholesalers announced that the entire purchase would be placed on sale in their own Pennsylvania and Ohio stores.

Marshall Field Store Head's Son To Start At Bottom

James Simpson, Jr., son of the head of Marshall Field & Co. Chicago department store, returned home on the Homeric of the White Star Line yesterday to start his career in the retail business.

Mr. Simpson has been abroad on a honeymoon trip since last September. His marriage followed his graduation from college and he will now begin work in the Marshall Field organization. Asked what duties he was to take over, but they would probably be of a minor nature, as it is his father's desire for him to start "at the bottom." He thought he might even begin his career in the basement of the Chicago store.

Another passenger on the boat was G. H. Gardner, men's furnishings buyer for the Broadway store of Los Angeles, who has been on a buying trip through Germany, Austria, France, England and Italy.

Tomorrow Fisher Bros. Present This—the History Making Shirt Event of 1928 For You

This is the first time Fisher Bros. ever issued an advertisement like this! But then, it's the first time Fisher Bros. ever staged a sale as unusual as this one. This whole company is up in the air, and the advertising department is no exception—so we let you have it thusly—hoping that we could impress you with the true greatness of the event by these unusual methods. A French engineer, Gaston Mourlaque, has designed this unique scheme for landing fields for transatlantic planes. By a system of ammonia pipes, leading to the ocean bottom, huge ice blocks are formed upon which the landing fields can rest. This photo shows a drawing of Mourlaque's scheme.

PENSION BRINGS WEDDING BELLS

Andrew Jackson, 84, Camden, N. J., Civil-war veteran, has believed for 60 years that it is wrong for a soldier to seek a pension unless totally disabled and unable to work. Down to almost nothing and with the mortgage on his house due, Jackson has been saved by the efforts of a congressman who has succeeded in obtaining \$65 a month for him for the remainder of his life. He's keeping his house now, and Mrs. Amanda Boulton, 86, his housekeeper, has proposed that they marry. "It's leap year," she says.

MEXICO TO RETURN LINDY'S HOP

Financed by popular subscription, Captain Emilio Carranza, Mexican aviator, is planning to return the courtesy of Colonel Charles A. Lindbergh's Washington to Mexico City flight, in May. His plane, a replica of Lindy's new model, is being built at San Diego, Cal., where Carranza, left, is shown inspecting a wing of the plane with Captain Luis Lopez, of the Mexican army. Carranza plans to fly the plane from San Diego to Mexico City, and then pilot it alone on a non-stop attempt to Washington, D. C.

GIVES GOTHAM SPENDING LESSON

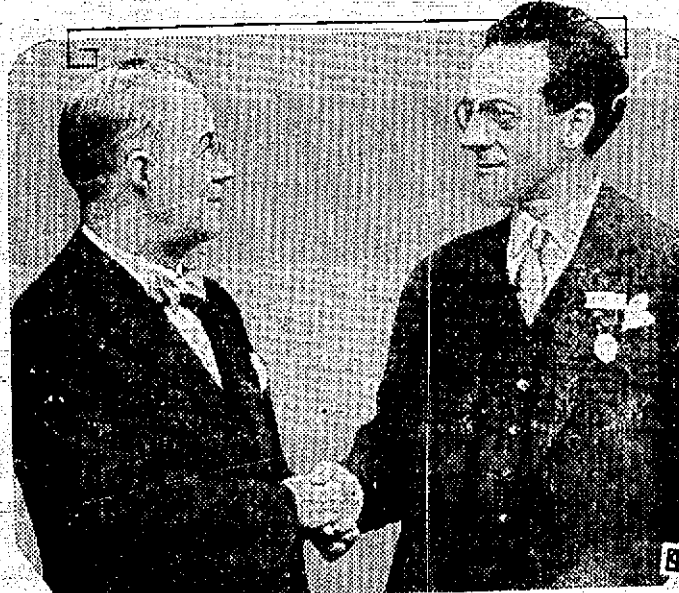

While New Yorkers are supposed to know all there is to know about the art of spending money, Alfred Lowenstein, Belgian financier and reputed one of the 10 richest men in the world, has been giving the metropolis a few lessons. Lowenstein, accompanied by his personal aviator, four secretaries, two typists, a chauffeur, a detective, and his family, has been staying in the royal suite at the Hotel Ambassador, New York City, where his hotel bill alone is said to average more than \$1,000 a day. Photos above show views of the suite occupied by Lowenstein, inset, and his entourage. Night clubs, theater agencies and florists shops have also been feeling his Midas touch.

U. S. GENERAL WINS \$15,000 PRIZE

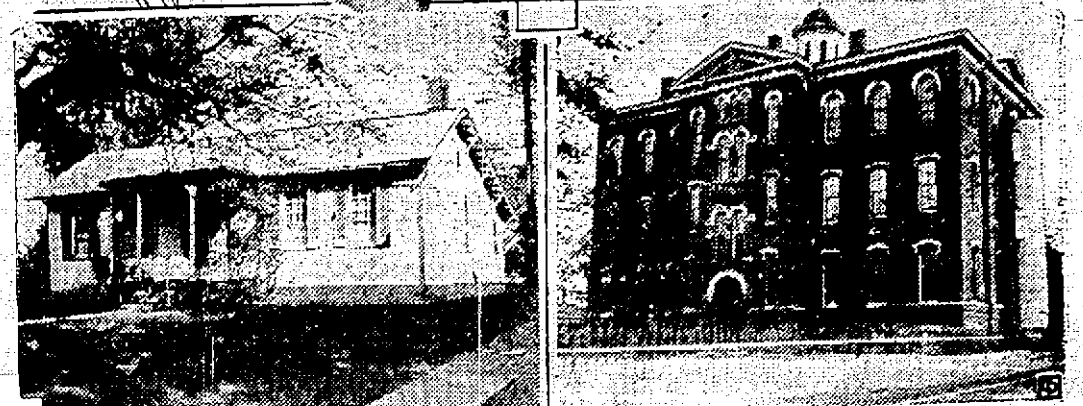

Brig. Gen. John T. Thompson of the U. S. Army, who has just been awarded at London the prize of \$15,000 by the British War Office for the most satisfactory rifle submitted for adoption by the British Army. The new rifle, which is said to fire as accurately and nearly twice as fast as any rifle now in use, was designed by the American general, who was Director of Armaments of the United States Army during the late war.

COUNSEL IN BISHOP BAST TRIAL

These men are counsel in the case of Bishop Anton Bast, of Copenhagen, Denmark, facing an ecclesiastical tribunal at the quadriennial general conference of the Methodist Episcopal church in Kansas City, Mo., on charges of conduct unbecoming a minister, following a civil charge in Copenhagen of alleged misuse of charity funds. On the left is Dr. Fred D. Stone, of Chicago, representing the church, and, on the right, Dr. Dorr F. Dieffendorf, of East Orange, N. J., representing Bishop Bast.

KENTUCKY HONORS ORIGINATOR OF MOTHER'S DAY

Throughout Kentucky, and at Henderson in particular, folk honor the memory of Mary Towles Sasseen Wilson—known to the middle west as the originator of the idea of Mother's Day. In 1892 Miss Sasseen, then a school teacher, published a book setting forth her ideas, and dedicated to her mother. In that year she succeeded in having the day observed in a school in Henderson, and in the year following in the schools of Springfield, O. Mary Towles Sasseen Wilson is shown above, left. Below is a view of her Henderson residence, and right, the Henderson school in which the day was first observed.

RADIO ENTERTAINMENT PROVIDED FOR FACTORY HELP

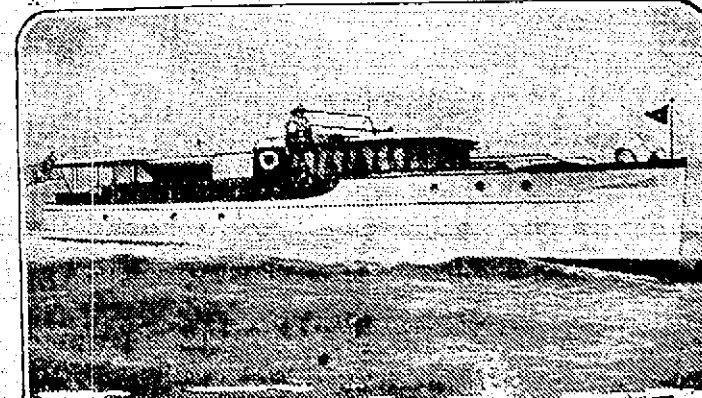

Throughout each working day in the small factory operated by F. Percy and H. W. Collingwood, brothers, at Attleboro, Mass., employees enjoy radio entertainment. At every worker's bench is a plug into which he can slip the tips of his headphone cord. The brothers believe that theirs is the only radioized factory in the world and they believe that they get increased production from employees. Photo shows workers with their headphones, and, inset, F. Percy Collingwood.

FRENCH PILOT TUNES UP PLANE FOR OCEAN ATTEMPT

Detroyat, French aviator, who is planning a Paris to New York non-stop flight alone, shown here landing at Le Bourget Field, Paris, after a test flight to Algiers, Morocco, and return. His plane, an Avimeta, is practically an all-metal copy of the Spirit of St. Louis. Inset is a closeup of the flyer.

TAKES OWNER TO OFFICE IN RUSH

This \$150,000 cruiser, declared by its designer, John H. Wells, to be the fastest craft of its type ever built, has been put into use by Walter P. Chrysler, motor magnate, in commuting between his estate at Great Neck, L. I., and his office in New York City. He has christened it "Troll."

Lottery Ticket Chief Arrested

Pittsburgh Officers Arrest
Leader Of Big Lottery
Syndicate

TICKETS VALUED AT
\$500,000 SEIZED

(International News Service)
PITTSBURGH, May 7.—With Ed-
win R. Richardson, 31, described by
police as head of the largest lottery
syndicate in Pennsylvania, under ar-
rest and lottery tickets representing
prizes totaling \$500,000 confiscated,
police today promised a series of new
arrests in their drive against "pool"
operators believed to have been do-
ing \$100,000 business weekly in this
section.

Richardson's arrest followed a week
of maneuvering on the part of City
Detectives P. E. Moran and Peter
Connors, authorities said. Moran,
posing as a merchant attempting to
secure the sub-agency in Allegheny
county from the ring, at last suc-
ceeded in making an appointment to
meet Richardson in the Pennsylva-
nia railroad station.

Richardson at first denied connec-
tion with the lotteries but police said
he later confessed. In the rear com-
partment of the automobile which he
drove, police said they found a large
package of tickets for baseball, Ken-
tucky Derby and other lotteries.

The grand prize in the derby was
represented in the tickets as \$12,500
with \$5,000 place and \$2,500 show
money. Amounts as large were prom-
ised in the other lotteries.

Quantities of tickets were said by
police to have been found in the
homes of Richardson and Joseph
Dayo, believed to have been a partner.
Dayo was not located. Cards and
routes of more than 50 sub-agents
were found at each house and in
Richardson's automobile, police said.

HIGH LIGHTS OF HISTORY

By J. Carroll Mansfield

Custer's Last Campaign—Part I
The Sioux Campaign Of 1876

IN THE SPRING OF 1876, THREE COLUMNS OF UNITED STATES TROOPS WERE SENT TO ROUND UP THE WARRING TRIBES OF THE SIOUX NATION. GEN. CROOK WAS TO MARCH NORTHWARD FROM FORT TOTTEN, WYOMING. GEN. TERRY TO ADVANCE WESTWARD FROM NORTH DAKOTA, AND GEN. GIBBON TO MOVE SOUTHWARD FROM THE YELLOWSTONE RIVER.

11-7-27 © 1927, HILLMAN NEWS SERVICE, SYDNEY, AUSTRALIA

THE FIRST SETBACK WAS RECEIVED WHEN CROOK'S ADVANCE WAS CHECKED IN A BATTLE WITH THE SIOUX LED BY CRAZY HORSE ON THE ROBERTS, JUNE 17TH. MEANWHILE, TERRY HAD ENTERED THE INDIAN COUNTRY WITH A STRONG FORCE THAT INCLUDED GEN. GEORGE A. CUSTER AND HIS SEVENTH CAVALRY.

TERRY SET OUT FROM FORT ABRAHAM LINCOLN, NEAR BISMARCK, ON MAY 17TH. ALL REALIZED THE SERIOUSNESS OF THE SITUATION AND, THOUGH GEN. TERRY PARADED THE COLUMN BEFORE ITS DEPARTURE, TO DISPLAY ITS STRENGTH, THE WOMEN WHO WERE LEFT BEHIND WATCHED THEIR LOVED ONES MARCH AWAY WITH HEAVY HEARTS.

THE JOURNEY TO THE BANK OF THE POWDER RIVER WAS MADE PEACEFULLY ENOUGH, AND HERE TERRY WAS JOINED BY GEN. GIBBON, WHO CAME TO REPORT THAT HIS COLUMN HAD HALTED ON THE YELLOWSTONE NEAR THE MOUTH OF THE BIG HORN, AND THAT EVERYTHING WAS IN READINESS FOR THE COMMAND TO MARCH TO THE SOUTH.

New Castle Wins First Home Game Of Season

Drive Wittmer From Box In Second Frame

First Game At Centennial Field Opens With Ceremony. New Castle Opens Batting Attack In First And Scores Enough Runs In Two Innings To Win. Wittmer Gives Way To Lash, Who Loses Duel To Bean; Hogan And Evans Star In Outfield And At Bat; McCullough Features By Driving In Two Runs In Second Inning

Shivering like a blackbottom dancer, and minus his protective winter clothing, Old Man Baseball made his 1928 appearance at Centennial Field Saturday afternoon, where overcoats, ear-lugs and mittens would have been as welcome as a reprieve to a doomed man. The New Castle team defeated Canton, seven to four, and the crowd which braved the cold blasts obtained a favorable impression of the aggregation headed by George Textor which represented New Castle.

Before the game started Fred L. Rentz introduced the managers and players of each team, after which Attorney George Muse introduced the two Lawrence county court justices, R. L. Hildebrand and James A. Chambers, and presented Mayor Gillespie. As a feature of the opening Hildebrand went to the box, Chambers at the bat and Gillespie caught, while Rentz acted as umpire. After Chambers singled to right the baseball lid of 1928 had been formally removed.

Drive Wittmer Off Mound

Manager Judy Hinchman sent Wittmer, a right-handed pitcher, to the mound, but before he was relieved by Lash in the second New Castle had garnered enough runs to win the game. The Centennials managed to get two more runs through four hits, two bases on balls and an error. Bean pitched steadily ball, excepting in the third and eighth when Canton scored a total of four runs.

Hogan, centerfielder for New Castle, banged out two doubles and covered his position in a stellar manner, while Evans matched him hit for hit, and also in fielding. The Canton leftfielder made a beautiful running catch of Bean's fly in the eighth, while Zwoder in the first half of the frame tried to make a shoe-lace catch out of Evans' fly but fell after making a hard try and Evans stretched the blow into a double.

McCullough's Hit Opportunity

After Canton's left pitcher, Hogan, was thrown out, Arndt to Whitehouse, but Zwoder worked Wittmer for a walk and advanced to third on Grimes' single to right. Grimes taking second on the throw, McCullough singled to right, scoring Zwoder and Grimes, but Shannon and Gibson flew out. Bean fanned Whitehouse and forced

Italian A. C. To Play South Hills In Practice Game

Italian A. C. Have Many Games On Schedule Prior To League Opening

Manager Clem General of the Italian A. C. incumbent of the National League section of the Lawrence County Twilight League, requests that all players under contract to report at the corner of Maitland and South Mill streets, 5:30 sharp, Monday night. The players will be transported to the South Hills grounds where the "South Hill club" of the American League section will be met in an exhibition game at 8 p. m.

Business Manager Tony C. Richards has arranged an exhibition schedule for the Italian A. C. with the American League section incumbents and has the following scheduled before the League curtain raises May 14: Monday tonight the South Hill team will be met on the South Hill grounds. Thursday night, May 10, the Twilight League Champions, Lawrence, Ind., will be tangled with on the Cedar street grounds; on Friday night, May 11, will find the Italians engaged on the Clifton Flat grounds, tangling with the strong Clifton Flats, all the exhibitions to start at 6 p. m. sharp.

The Italian A. C. roster is composed of veterans and youngsters of the diamond, thus making the team evenly balanced as to experience. The team under the able leadership of Clem General is expected to cause plenty of trouble in the National League section of the Lawrence County Twilight League for pennant honors.

Sebastian Isabella has been appointed publicity agent for the forthcoming season for the Italian A. C.

Billings Hurls Two-Hit Game

Detroit Rookies Turns In Great Pitching Against Boston Red Sox

"BUSTER" GEHRIG HITS HOME RUN

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, May 7.—Haskell Billings, youthful pitching sensation of the Detroit Tigers, would have a no-hit game to his credit today if Buddy Myer had been kept out of the Red Sox lineup yesterday. The Boston team got only two hits off Billings, and Myer made both of them. Detroit touched Gettembie and Bradley for only six hits but got the verdict by a 3 to 0 score.

Billings' performance was especially welcome to his mates because they need good pitching like beans need catnip.

The St. Louis club, alias Samuel Gray, nosed out Washington in the bottom of the ninth.

Juniors To Play League Formed

Under the supervision of the city recreational director a junior baseball league has been organized, with scheduled games starting on May 14. The teams are made up of boys between the ages of 14 and 17. At present three sections of the city are represented by eight teams. It is hoped that teams from the seventh ward and Croton will soon be included in the roster.

It is very probable that the local post of the American Legion will co-operate with this league in selecting a team to represent it in games with other posts in the 28th section. This is in cooperation with the movement sponsored by the national organization to promote organized baseball among the younger boys.

The teams already included in the league together with their captains are as follows: The Aces, William McLaughlin; the Athletics, Francis Ekeberger; the Vagabonds, Kenneth Udonnegan; the Indians, Nick Uram; the Pontiacs, John Brucko; North Hill, James Shaffer; Ryan, Ryan; the Cubs, Howard Proctor; the Square Cubs, William Mitchell.

A full schedule of games will appear in the near future.

Personalities IN SPORT

BILL TILDEN

William Tatem Tilden, Jr., internationally famous tennis player, was born at Germantown, Pa., Feb. 10, 1893.

Tilden has had a sensational tennis career, smashing his way to the unofficial singles championship of the world and making himself for years the greatest factor in American tennis supremacy.

Bill has written books on tennis play and is also an accomplished actor, having appeared on both the American stage and screen.

When the 1928 American team was chosen he was picked as captain in order that the Yankee youngsters would have the benefit of his shrewd tennis brains as well as excellent play.

Gene Tunney To Start Training

(International News Service)

NEW YORK, May 7.—Gene Tunney's first training session of 1928 at his camp in the Adirondacks will be made the first of next week.

Gene, the heavyweight champion, Lou Fink, departed today for Speculator, N. Y., with Gene's training partner, and will have a ring rigged up and all accoutrements ready by the end of the week. Tunney expects to leave New York the latter part of this week.

Jack Dempsey is spending west today for a stay of about three weeks in California.

Slim Underwood Holds Akronites Hitless For Five Innings

SCORE THREE RUNS IN FIRST INNING

AKRON, May 7.—New Castle defeated Akron five to one Sunday afternoon as Slim Underwood was in fine form and held the Akronites to three hits the first of which came in the fifth while Vaughn was found for nine safe blows.

Underwood was signed by Manager George Textor who found him in the Central League and Leonard, another new outfielder was given a chance to romp for New Castle in the left field garden. He played in place of Zwoder and came through with a run, two hits and had two putouts. Hogan got his customary hit.

Ben Franklin Wins Swimming Title In City School Meet

Ben Franklin High Swimming Team For Second Straight Year Annexes Championship

Russell Grannis And John Watson Tie For High Point Scorer In Meet

Ben Franklin Junior high school has in its possession today a handsome trophy cup donated by The New Castle News. The cup was successfully defended Saturday in the annual city schools championship meet held at the Ben Franklin swimming pool. It was the second straight year that the Ben Franklin boys carried through to victory over a big field.

The totals for the meet Saturday gave Ben Franklin high 51 points. Sophomores 13 points; Seniors 8 points and North street 4 points. The Juniors of New Castle high failed to tally a point. The meet was staged under the supervision of Edwin H. Geasa, swimming instructor of Ben Franklin high, and assisted by the two student managers, Edward Kendra and Francis Rader.

Franklin Shows Class

It was in reality a runaway for the swimmers of Ben Franklin high with the winners capturing every first place except one, and that went to James Herbold, a Sophomore in the 100 yards breast stroke. The meet was a highly successful one, but it more boys had taken part. Many of the classes had but three or four boys entered in the meet. The competition was very keen and many of the races were closely fought. The race in which Herbold was the winner proved to be the finest race of the entire meet. Herbold just managed to nose out Glenn Thomas of the Senior class. Very good time was made in all events.

A fairly large crowd was in hand for the meet and to cheer their favorites to victory. With the new George Washington Junior high having a swimming pool the competition next year should be very keen. Next year the New Castle Trade School boys will have their own swimming team under a new rule.

Grannis-Watson Tie

Russell Grannis and John Watson, both of the Ben Franklin team were tied for the individual scoring honors with 12½ points apiece. The following boys won medals presented by Jack Geasa, a local jeweler: John Watson, two; Russell Grannis, two; Harry Mooney, Abe Vago, James Herbold, 1; Herbruck, Mostade, Dougie, Lewis, Grimes, Shannon to Gibson; Grimes to Gibson. Hit by pitcher—Lewis. Base on balls—Off Vaughn, 2; off Underwood, 4. Struck out—By Vaughn, 5; by Underwood, 6. Wild pitch—Underwood. Umpires—Warner and Harris.

SCHOOL DAYS BY DWIG

Big League Clubs Are Now Settling Down To Business

Pirates, Reds, Giants And
Yanks Continue To Show
Good Baseball

Pittsburgh Team Returns To
Hitting Stride And Ad-
vances Toward Top

By DAVID J. WALSH
Editor International News Service
NEW YORK, May 7.—Now being
out the time for all good ball clubs
to come to the aid of the percentage
club. It is noted today that out-
fits like the Pittsburgh Pirates, the New
York Giants and the Cincinnati Reds
in the National League, and the New
York Yankees and the Philadelphia
Athletics in the American League are
beginning to show just where the
authorities are vested. They were
heavy winners on the week just
closed, a week during which the
club was at a minimum for the first
time this season. In brief, class is
beginning to register.

Cards Take Slump
The St. Louis Cardinals, as a mat-
ter of fact, were the only admitted
underdog that didn't do itself some
good during the seven days in ques-
tion. The Cards, split up the back-
up, a downer's gown by a series of
negatives and injuries, averaged only
one run a game in the last eight
days, and that kind of hocus-pocus
is not like an ex-light in this modern
era. The club won only two out of
eight and now is doddering around
sixth place.

The Pirates, Reds, Yankees and
Athletics stacked themselves to the
east weekly gains. The Pirates' re-
cord being five out of seven; the
Reds six out of eight; the Yankees six
out of seven and the Athletics four
out of five. In consequence the Pir-
ates sided into fourth place, within
two games of the lead; the Reds dis-
placed the Dodgers in the runner-up
position and the Yanks gave evidence
of making a one-club race again of
the American League affair.

Only the Athletics, the Detroit Tir-
ons and the St. Louis Browns of the
four contenders were able to win
prize games last week. However,
the odds were barely more than broke
in games of the Yankees percentage of
winning and you don't need a miracle to
know what is going to happen if that
kind of business goes on much longer.
Perhaps Yankee pitching isn't what
was, but any club that scores seven
in a game isn't due to lose too many
times.

Pirates Slug Ball
At this, the Pirates did the real
thing for the week, getting no less
than 10 hits in seven games for a
remarkable average of 14 to the game.
Those who thought Pittsburgh was all
shed up like a starved collar after
the last world series are beginning
to think up another good one.

The Giants also had a big week on
the attack and they needed it, judging
the kind of pitching they got in
the first three games at Cincinnati.
Last two of which were lost. Out-
McGraw's boys still are running
at today, but they are almost as
sluggish as the Cardinals. They
lost five out of eight, thanks to the
rather stripping they gave the Dod-
gers, and even including the Cincinnati
series they took a terrible trum-
ph of enemy pitching. They aver-
aged nearly 11 hits a game for the
week, their output including eight
long runs, high water mark for the
last days.

Reds Are Surprise
Meantime the Reds, not supposed
to be a hitting club, virtually kept
pace with the Giants in this depart-
ment and today are running a rous-
ing second, less than a game out of
the lead. The Reds top the league
in runs won with 13, and from an
average standpoint are exceeded
by the Yanks and Cleveland In-
dians, each of which has won 14. The

Indians, however, began to slip back
toward normalcy by winning only two
out of six for the week. Pitching or
no pitching, a club that scores only
20 runs in six games is headed no
place at a sickening rate of speed.
Just such another club is the Dod-
gers, who dropped from first to third
with a run average of less than three.
The surprising feature of this was
that the Dodgers were able to break
even on the week.

So did the Chicago Cubs, who, how-
ever, gave some evidence of emerging
from their hitting despondency by
averaging a trifle better than nine
hits a game. But the Cubs scored
none too freely and the idea is that
they use the score board mostly for
runs.

Everybody thought the Browns
were going to accept one with the
aid of their countenance during these
seven days, but Howley's club contin-
ued to push opposing pitchers all over
the premises, getting 32 hits in seven
games, winning four of them and re-
maining, as is, in the first division.
If the Browns do nothing else for the
rest of the season they can check the
bet on that early flurry they caused
in the American League situation.

HERE AND THERE IN SPORTS' LAND

By ED. FRITZ

According to Bill Jolly his new
arena which is to be built at State
and Sampson streets will soon
commence rising into the air. A seating
capacity of 2,500 is proposed.

Industrial League bowlers of this
city are getting ready for the annual
banquet which will be held Wednes-
day night at the Elks club, North Mill
street.

Carm Sacco, matchmaker for the
New Castle baseball club which will
operate at Centennial field as yet has
not arranged his card, he said Sat-
urday, but is now scanning popular
fighters.

It looks as though Leonard may re-
place Zwoder in left field for the
New Castle team. Manager Textor in-
jected him into the lineup at Akron
yesterday.

Apparently Slim Underwood will be
fixture with the team as the former
Central league pitcher came through
yesterday. He held Akron without
a safe blow until the fifth session.

The game at Centennial field was
brilliant in spots and when it looked
anywhere dangerous for New Castle.
Bean's teammates hustled and gave
him sufficient hits to keep him out
in front.

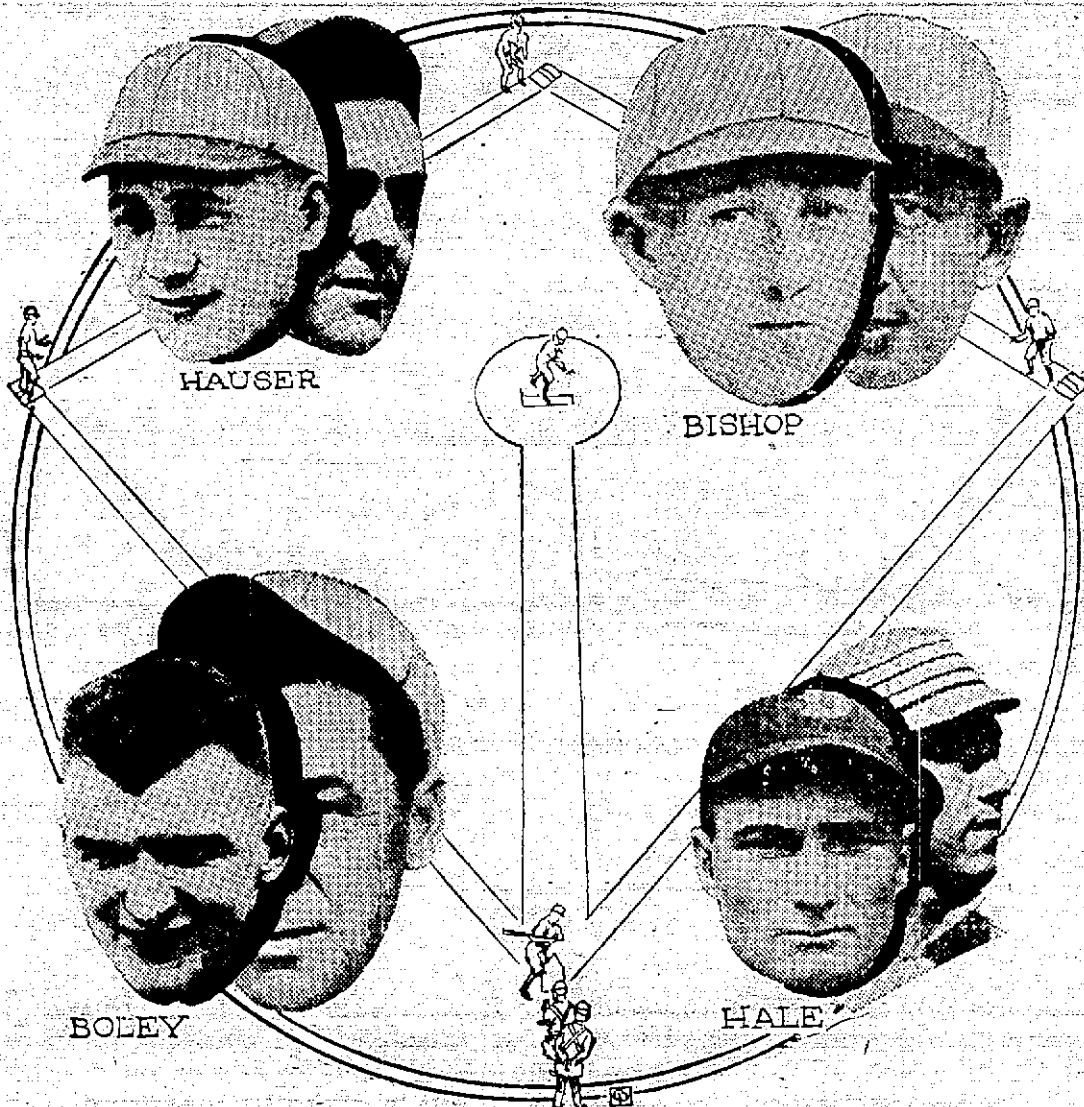

This fellow Hogan in center field
reminds one of Welmer, excepting
that he apparently is better. He cov-
ers the field and when the left hand-
er goes to bat he generally produces
action.

Sankey McCullough was found in
the hitting column. One of his hits
drove in two runs. Sankey also
ramped across the plate but no one
hammered any fly balls in his direc-
tion.

Although Jack Shyrkey is on the
outside looking in so far as Tony
and Heeneey is concerned it looks as
though he may fight Risko and the
winner meet the winner of the Tun-
ney-Heeneey battle.

You can't expect much reform in
land where hatred of those who rob
the public is seven-parts envy.—The
San Francisco Chronicle.

MACK'S INFIELD CALLED GREATEST SINCE 1914

The present infield of the Philadelphia Athletics looks like the finest since 1914, when Manager Connie Mack broke up the great McInnis-Collins-Barry-Baker gang. The stellar 1928 infield consists of Joe Hauser, first; Max Bishop, second; Joe Boley, short, and Sammy Hale, third.

New Castle High Track Team Shows Up Well At Tech

Craft Wins First Place In Jave-
lin; New Castle-South Ak-
ron Tied For Sixth
Place

New Castle high school track team
made a very creditable showing in the
annual Carnegie Tech invitational
scholastic track and field meet held
Saturday at the Tech bowl. New
Castle finished sixth in a tie with
Akron South high. South Brownsville
won the meet. Beaver Falls high was
second. The red and black clunder
artists, led by Arthur Craft, former
Ben Franklin high star, took one
first, two fourths, a fifth and a one-
eighth in the high jump.

Arthur Craft heaved the javelin a
distance of 164 feet to capture the
field event, with Pasco of Salem high
second. Craft also took fourth in the
discus throw. This event was won
by Cassarone of South Brownsville,
with a heave of 121 feet 9 inches.
Craft was fifth in the shot put with
Martin of Lock Haven, first with a
heave of 44 feet 2 1/2 inches. New Cas-
tle gained 1-8 point in the high jump.

In the class A mile relay the New
Castle team was noosed out by Bea-
body high with the race one of the
closest of the entire meet. Paul Rad-
ner, the all-around star at New Castle
high, was noosed out by a scant few
yards at the finish, after cutting down
a rather big lead that Peabody had
piled up through the previous run-
ners.

Bruce Alexander made a bid for the
120 high hurdle event and finished
first in the trial heat, but in the finals
was content with fifth place.

The showing made by New Castle
high Saturday was in a certain degree
surprising, as it was not believed that
the Lawrence county school would
have a look-in. Coach Bridenbaugh
was very well pleased with the actions
of the local boys in the Tech meet.
The competition was very keen, due
to the fact that the cream of the
high schools in Pennsylvania, Ohio
and West Virginia took part.

JOE SEKYRA

Joe Sekyra, the blond Bohemian
baby from Dayton, O., is but a
lightweight in poundage, but has had
most of experience and success
against the big boys.

Joe has done battle with Johnny
Risko twice, Sully Montgomery, Bob
Fitzsimmons, the younger, and
others of the oversize class.

Sekyra is only 21 years old, and is
six feet in height. At present the
boy has his lamps glued on the light-
heavy crown now worn by Tommy
Loughran, but Joe may graduate into
the bigger class after his go with
Tom.

The heavyweight champion of Italy
is an accomplished violinist, and very
literary. He wants to meet Gene
Tunney. The dispatch didn't say
whether it was in a concert or a de-
bate.

If Gene is educated this fellow is a
whole college course. He's not so
dumb. He realizes that when his
nose is in a book it can't be resting
against some pug's glove.

The mauler from Mussoliniland also
loves to play the guitar, mandolin,
ukulele and bass viol. This gives him
four reasons for leaving Italy.

Hakoah Athletic Association To Have Ball Team

Hakoah A. A. To Sponsor Team
In New Castle Church
League This Season

The Hakoah Athletic association
will sponsor a team in the New Cas-
tle Church League this year it was
announced today. The team was
originally known as the Temple Isarais.

This recently formed athletic as-
sociation is composed of business men
and young fellows of this city who
intend to foster clean sports for the
Jewish manhood of the community.
J. F. Perelman, prominent business
man of the city will act as the head
of the association, and the Board of
Directors comprise some of the lead-
ing business and sportsmen of the
city.

The first endeavor of the society is
the sponsoring of the baseball team
in the New Castle Church league,
and Mont Eliau former Terrace A. C.
star will manage the Hakoah team.
The team has been practicing hard
in the past few weeks and they will
conclude their preliminary work to-
night at the newly constructed Buck-
eye field on the Butler road.

The Hakoah team will open their
schedule in the Church league on
Tuesday night by meeting the First
Baptists, at the Lehigh field at 6:15
o'clock.

All former Jewish stars are invited
to attend the practice sessions and
help train the team for the grueling
season that awaits them in the
Church league. The Old-Timers will
play the Hakoah club a series of
games at a later date.

NOTICE

Baseball scores and notices turned
into the Sport Department of The
News must be in the office the night
the game is played, or in an emer-
gency not later than 9 o'clock the
next morning, and must be written
plainly, and be complete. All ar-
ticles must be signed and include
the address and telephone number of
the sender.

TWO YANKS NOW AFTER ARCHIE COMPSTON'S SCALP

With the smashing defeat of Walter Hagen, American golfer, by Archie Compston, British links ace, in a special match, two Yankee golfers, Macdonald Smith and Tommy Armour, have risen to regain the lost laurels. Both demand that Compston play them a special match. Smith is shown at left, Compston in center, and Armour at right.

British Open Golf Tourney Starts Today

Fine Weather Greets Entries In
Annual British Open Golf
Tourney

(International News Service)
SANDWICH, England, May 7.—
Beautiful weather and a well-nigh
perfectly conditioned course greeted
the opening of the British open
championship here today.

The greens appeared to be very fast
but there was a slight northeast wind
blowing which might hamper driving
somewhat. A colorful throng of thou-
sands poured into this ancient town
early to witness the tourney.

The usual fierce battle between the
American contingent and the British
stars is anticipated. The British have
succeeded in stopping the Americans
only once in the last seven years. In
1923 Arthur Havers stemmed the
American tide.

All the Americans have been play-
ing well in practice. Walter Hagen,
especially, has been working feverish-
ly to be at the top of his form to
stage a comeback after the lambast-
ing he received at the hands of Ar-
chie Compston, the British favor-
ite.

Tommy Armour is being backed
heavily because of his fine showing
during the last few days. Gene Sar-
azen, Larry Nabholz and "Wild" Bill
Mehlhorn the other American con-
tenders all have shown excellent
form.

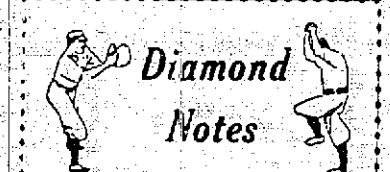

Abe Mitchell the British veteran is
favored by many. George Duncan is
another Englishman who must be
reckoned with.

Church Loop To Play Inaugural Games Tonight

Four Games On Tap For
Church League Opening
Tonight; Expect
Fine Season

COMPETITION IN LEAGUE IS KEEN

The New Castle Church League
baseball season will be officially open-
ed tonight with the staging of four
games on the various fields of the
city. The games will start at 6:15
o'clock.

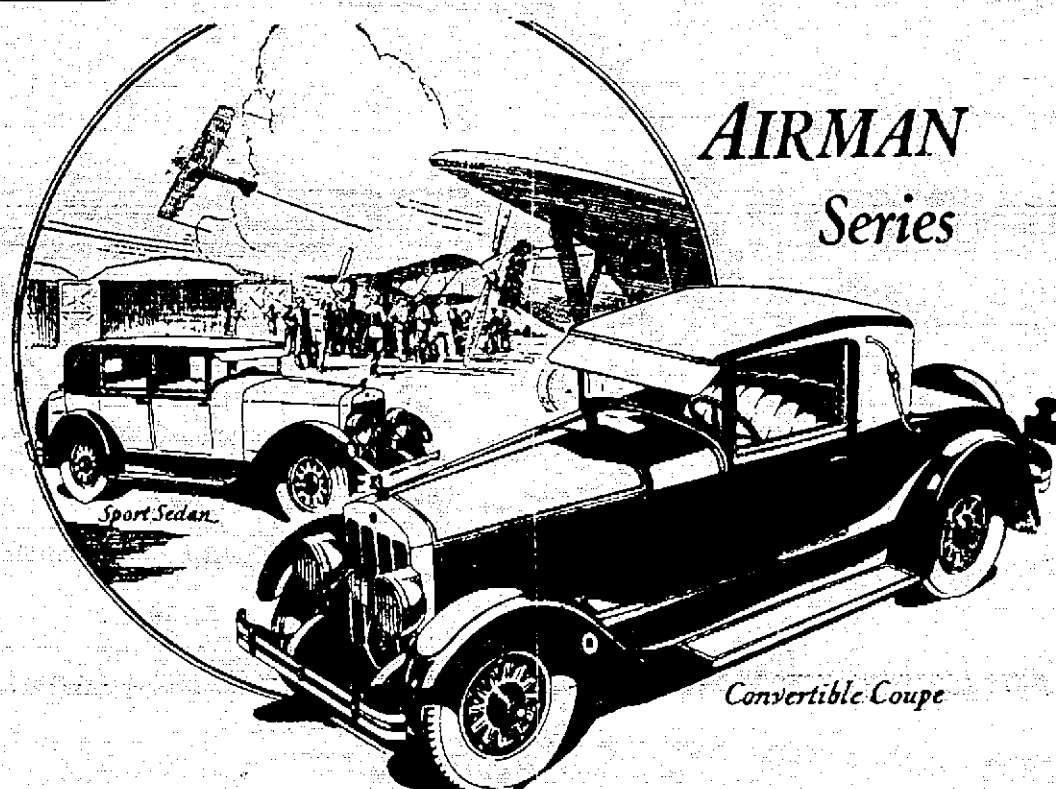

The Croton M. E. team will tangle
with the Central Presbyterians at Le-
high field and Alec Black has been
chosen as the umpire.

At the Colonial field the First M.
E. team will open with the heavy hit-
ting Central Christian boys and
O'Brien will call them.

At the Mahoning field the Grace-
Congregationalists will meet the Ep-
worth M. E. team and Parks will
handle the indicator. The Grace-Con-
gregationalists are newcomers to the
circuit this year and are reported to
be sponsoring a fast outfit.

At the Scotland Lane field the
First Christians and Mahoning M. E.
will play with Brooks as the umpire.
Two games are scheduled for Tues-
day night as follows: First Baptist vs.
Hakoah at the Lehigh field and the
First Christians vs. Croton M. E. at
Scotland Lane.

Only the AIRMAN offers comfortable all-day high speed

ONLY by having an Airman ride can you
realize that here is actually a wholly
different kind of motor car performance. Far
greater riding comfort—far greater ease of
handling—at all speeds—over all roads.

Airman superiority is the result of different
design throughout. So many exclusive and
modern features have been built into the Air-
man that it is the outstanding achievement
of present-day automotive engineering.

Air-cooling—the better way to cool airplane
and automobile engines . . . A powerful
motor—supplying ample reserve energy to
meet any road emergency . . . A new type
of high speed—making the Airman the
world's fastest car in a day's run . . . A new
type of riding comfort—making a day's trip
in an Airman less fatiguing than a few hours'
run in most cars . . . Artistically correct in
design—assuring permanent beauty.

Let us arrange your first Airman drive to-
day. Find out for yourself what it means to
get a satisfying thrill out of your car, every
time you take it out. Payments out of income
may be arranged.
